ComfortBand PLUS™ Wristband Instructions
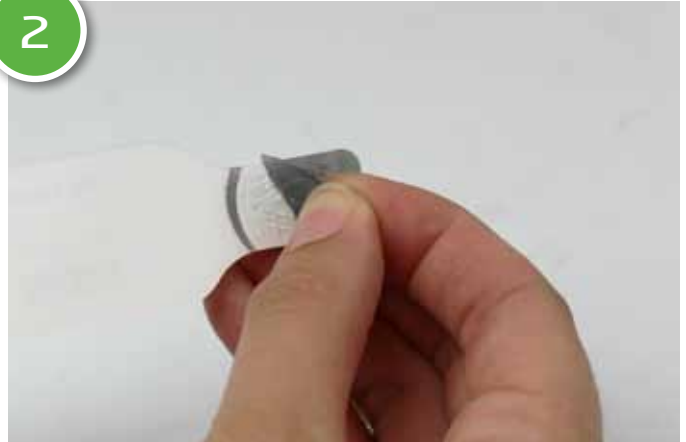

1

Lay sheet on a flat surface. Hold top left corner of sheet and gently push out wristband to separate.

2

Remove gray tab on back of wristband to expose adhesive.

3

Wrap wristband around patient's wrist and secure by pressing the adhesive portion to strap.

OPTIONAL STEP

Optional: STAT label may be used on the wristband (over the adhesive closure) or on documentation, according to your hospital protocol.

Communicate multiple color code alerts on ComfortBand PLUS™ easily and effectively with Ident–Alert® Clasps:

- Meet standardization requirements by combining both colors and words
- Easy to read alerts
- Variety of stock colors and imprints
- Latex and Phthalate-Free

Ident–Alert® 8621
solid, colored, plastic snaps with printed alert text

WARNING: Wristband may restrict circulation if applied too tightly, resulting in nerve or tissue damage.
