

Conf-ID-ent™ Newborn Identification Tags

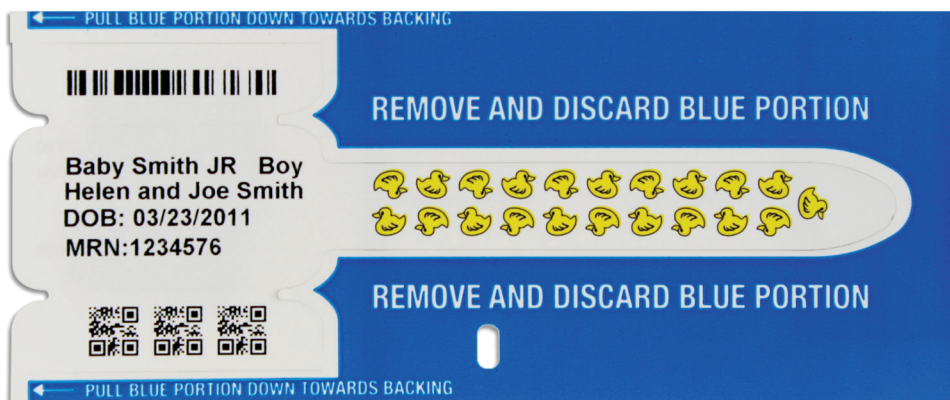

Achieve positive identification for newborn patients using Conf-ID-ent™ Newborn Identification Tags, specially designed for on-demand printing with a direct thermal printer. The unique, double-sided design and adhesive-free strap provide a flat bar code surface for easy access and scanning without disturbing the patient. The tags are made from soft material with rounded corners so they are gentle on your most sensitive patient's skin. They can be attached to any wristband, making them the most versatile bar code solution for your newborns.

- Double-sided tag with strap allows scanning in any position, without disturbing the patient
- Easy-to-use and attaches to any wristband
- Durable, lightweight and comfortable design
- Latex-free and phthalate-free
- Supports text, bar codes, and photos
- Compatible with most direct thermal printers

Newborn Tag — Direct Thermal				
Part Number	Core Size	Wound	Qty./Case	Color
