meets safe, efficient patient care.

There's No Comparison

Safe-D-Covers™ #1 job is to protect your detector/cassette!

With the advances in radiology technology, X-ray equipment costs continue to increase. Now's the time to protect your detector/cassette investment by using disposable Safe-D-Covers™ during EVERY mobile X-ray. Other covering methods may seem equivalent but they can actually increase the chance of artifacts in images and fluid penetration due to the inferior product design.

Why Choose PDC Healthcare's Safe-D-Covers™?

When used with EVERY mobile X-ray, Safe-D-Covers™ will provide optimal protection for your detector/cassette.

Safe-D-Covers™:

- ☑ Provides a barrier between the patient and the detector/cassette, protecting the detector/cassette from fluids.
- ☑ Ziplock closure lowers the risk of fluids coming in contact with your detector/cassette.
- ☑ Disposable feature allows technicians to move quickly from patient to patient, increasing productivity, workflow, and efficiency.
- ☑ Proven to be translucent in X-ray images.
- ☑ For over 20 years, technicians have trusted Safe-D-Covers™ more than any other covering method.

Trash Bags:

- ✗ Majority are half the thickness of Safe-D-Covers™, leaving your detector/cassette more susceptible to fluids.
- ✗ Does not offer sealable closure, allowing potential liquids to come in contact with your detector/cassette.
- ✗ Often too large, leaving the technicians with extra material to tuck or push under the patient.
- ✗ Material is not manufactured or tested to be translucent in images, leading to potential retakes.

Disposable & Reusable Pillowcases:

- ✗ Porous material and no sealable closure allows potential liquids to come in contact with your detector/cassette.
- ✗ Material is not manufactured or tested to be translucent in images, leading to potential retakes.
- ✗ Reusable pillowcases require laundry, which increases costs and has been identified as one of the 6 areas of concern related to the spread of infection.

Choose from the largest selection of covers to fit your detector/cassette. If you have any questions, **please call PDC Healthcare's customer service & support team at 800.435.4242.** We'll ensure you get the right cover for your detector/cassette.

Safe-D-Covers™ with Ziplock Closures

- Offers the most protection.
- The only truly sealable cover virtually eliminates the chance of fluids coming in contact with your detector or cassette.
- Extra thick Safe-D-Cover™ is double the thickness, providing the most durability.

Accommodates Detector/Cassette	Original Safe-D-Cover™	Extra thick Safe-D-Cover™
10" x 12" or 25cm x 30cm	DCC-13Z	
14" x 17" or 35cm x 43cm	DCC-14Z	DCCX18Z
20" x 20" or 51cm x 51cm	DCC-21Z	
Carestream DRX Detector	DCC-19Z	

"The use of disposable and impervious cassette covers would avoid direct contact between patient and cassette..."

In addition, an effective method for cassette cleaning and decontamination is essential to ensure that cross infection is kept to a minimum."

-Fox M, Harvey J.

An Investigation of infection control for x-ray cassettes in a diagnostic imaging department. 2007

Safe-D-Covers™ with Overlock Closures

- Provides a secure cover with a "sandwich" style closure.
- Easy-slide Safe-D-Covers™ provide a slippery surface that slides easily under the patient.
