Identification Solutions

Trusted by the Leading Hospitals

More than 80% of hospitals use PDC Healthcare's patient ID wristbands.

PDC Healthcare is the pioneer of patient identification wristbands and has been at the forefront of the advances in positive patient identification for over 60 years.

Patient ID solutions have been proven to enhance patient safety and support a more efficient workflow for L&D and NICU staff.

Plus, PDC Healthcare offers the widest variety of bar code wristbands to meet your needs.

All PDC Healthcare Wristbands:

- Made of medical-grade, soft materials for patient comfort and durability
- Produced following an ISO systematic, world standard approach to ensure superior product design and manufacturing
- Meet The Joint Commission's National Patient Safety Goals for the accuracy of patient identification and improving the effectiveness of communication among caregivers
- Latex-free and phthalate-free

PDC Healthcare specializes in custom solutions to meet your unique needs. To learn more, see Page 45.

Newborn ID Footprinters & Forms

Kleen-Print® Disposable Footprinter

Do you really want to put ink on that precious newborn skin?

Kleen-Print® puts the ink on the form...not on mom, baby, or you. Kleen-Print® permanently records newborn footprints and mother's fingerprint in a way that is clean and safe for everyone.

The
"No Mess"
Solution!

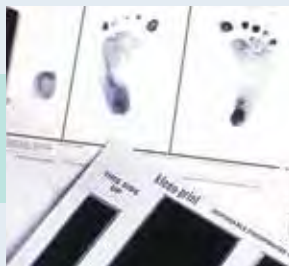

Product Number	Qty.
3100-00-PDE	25/Box

How it works

When the baby's foot is pressed on the clean side of the film, the inked side makes the print. Only the underside of the film is inked. The ink never touches the mother or baby!

For use with Newborn Identification forms and Kleen-Print® clip board (page 10).

Neonatal Foam Bands

Precision® Neonatal Foam Bands

The softest ID bands for your most fragile patients.

These wrist and ankle bands were designed to positively identify the individual newborn, and eliminate the unsafe practice of taping patient information to the incubator. With extreme comfort in mind, these bands are made of a soft foam material that is gentle on sensitive, delicate skin.

- Blank ID panel accepts handwritten information or printed label (up to 2" length and 3/4" width)
- Adhesive shield protects critical patient ID information and bar codes
- Easy to apply using a simple hook and loop fabric closure
- Re-adjustable to accommodate IV site changes

Product Number	Style	Length of Foam Band	Information Area	Qty./Box

*PDC Healthcare's thermal wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

TenderCare® Thermal Mother/Father/Infant

Exclusive, patented 4-part wristband system positively identifies baby with mother and father or designated family member.

See Page 37 For
Product Details

Infant Wristbands – Thermal

Precision® Infant Direct Thermal Wristbands

Provide positive patient identification for newborns using bar code technology.

Superior imprint quality, maximum resistance to solvents, and seamless printing with the patented PermaPrint® surface. Also provides a flat surface for best bar code scanning results, eliminating curvature issues.

- Easy to apply adhesive closure ensures safety and security
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Compatible with most direct thermal printers

See Page 37 For Product Details

†Black bar located at the perforation for ZPL/EPL support.

ScanBand® Z Infant Direct Thermal Wristbands

Soft and smooth infant wristbands are compatible with Zebra and other direct thermal printers.

Enjoy seamless printing with the patented PermaPrint® surface designed for durability and resistance to moisture, alcohol, and hand sanitizer to preserve patient data and bar codes.

- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Indexing bar is located at the perforation to ensure proper alignment and calibration

See Page 38 For Product Details

*PDC Healthcare's thermal wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

Mother & Infant Wristbands

SnugFit® Wristbands

America's best selling mother and infant ID wristband!

Newborns typically lose water weight within the first 72 hours after birth. SnugFit® features a unique adjustable closure to keep a "snug fit" at all times for safe and secure identification.

- Soft vinyl material with no rough edges
- Closure is re-adjustable to size needed
- Available in Imprinter and Insert styles (Insert cards included)
- Serialized with alphanumeric characters

See Page 38 For Product Details

Alphanumeric serialization

Ident-A-Band®

Top Seller!

Nurses love the softness, quality, ease-of-use, and cute heart-shaped snaps on these Ident-A-Band® wristbands. Includes thin paper cards to handwrite patient ID information and insert it into the wristband.

- Soft, tubular vinyl material
- Large, highly visible numbers
- Colored backing on inserts highlights serial number on bands
- Only available as custom

Available in Clear ONLY

See Page 39 For Product Details

Improve Patient Safety with Bar Coding!

See Pages 18 & 19.

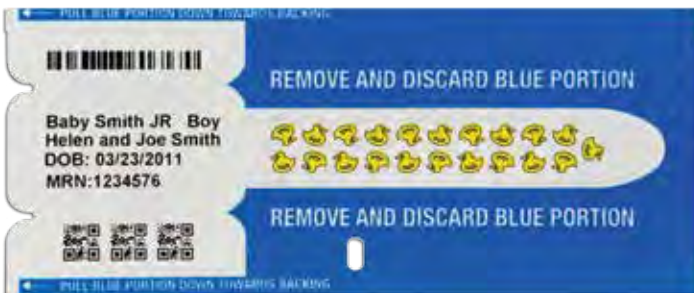

Bar Code Tags – Thermal

Conf-ID-ent™ Newborn Bar Code ID Tags

For on-demand printing with a direct thermal printer.

Unique, double-sided design and adhesive-free strap provides a flat bar code surface for easy access and scanning without disturbing the patient. Tags are made from soft material with rounded corners so they are gentle on your most sensitive patient's skin.

- Double-sided tag with strap allows scanning in any position, without disturbing the patient
- Easy-to-use and attaches to any wristband
- Durable, lightweight and comfortable design
- Supports text, bar codes, and photos
- Compatible with most direct thermal printers
- Patient ID and bar code on both sides for easy access and scanning

See Page 39 For
Product Details

Extend Newborn Patient's ID Tag Outside of the Swaddle

Identify delicate NICU patients without disturbing or unswaddling to help promote healthy development. Attach any bar code ID tag to a wrist or ankle band using the TenderCare® Infant ID Tether. See Page 20 for product details.

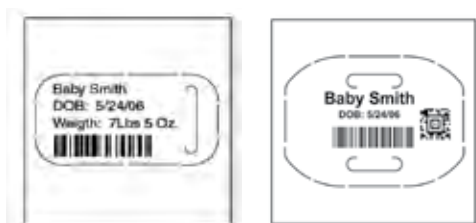

Precision® Thermal Bar Code ID Tags

Simple, print-on-demand tags turn any Mother/Father/Infant wristband* into a bar code wristband to improve patient safety and efficiency. Available in several formats to fit your application needs.

2 Adult Tags and 2 Infant Tags – Mother/Father/Infant

Infant ID Tether & Blood ID Tag

TenderCare® Infant ID Tether

Positively identify the tiniest patients while leaving them swaddled, comfortable, and secure.

While NICU patients require special care to minimize disruptions to their growth and development, protocol requires scanning patient ID to administer breast milk, IV fluids, or medication.

With the ultra-soft tether, the ID tag is attached to the newborn's identification wristband to extend outside of the swaddle.

- Ultra-soft and durable material for delicate newborn skin
- Easy application plus a tamper evident closure for patient safety
- Compatibility with any wristband and ID tag combination
- User-friendly packaging with pre-separated, individual tethers
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*

Product Number	Description	Size of Wristband	Qty./Box
7780-82-PDG	Ducks	12.5" L x 45" W	100
7780-11-PDG	White	12.5" L x 45" W	100

*PDC Healthcare's thermal wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

Securline® NICU Blood ID Tag

The first and only patent-pending blood ID solution for NICU patients.

Provides positive patient identification of your most fragile, critical patients for blood transfusions, cross/type, etc. The tag is easily secured to the patient's primary identification ankle band or wristband using the TenderCare® Infant ID Tether.

- Includes matching bar code labels to link the patient, draw tubes, transfusion, requisition, etc. according to your hospital protocol
- Helps prevent human ID errors and reduce unnecessary blood re-draws
- Tag and tether design allows nurse to scan and identify newborn without unswaddling or disturbing the infant
- Soft material is suitable for delicate skin

Product Number	Size	Information Area	Qty./Box
2450-**-PDB	8 3/8" L	2 11/16" L x 3/4" H	150 (15 dispenser boxes of 10 tags each)

Substitute ** for numbered color

KangaBand® Wristbands

For use with Broselow® Pediatric Resuscitation System.

Positive identification is mission critical when it comes to pediatric identification. When resuscitation is imminent, every second counts. The color coded KangaBand® wristbands are specially designed to help quickly and accurately identify size and weight categories of pediatric patients. They coordinate with the Broselow Pediatric Resuscitation System, which provides a quick reference for accurate medication administration and proper equipment usage. KangaBand® is ultra-soft, flexible, and comfortable for patients, with even the most delicate, fragile skin.

- Write-on style wristbands feature a designated area to write in patient's weight (in Kg)
- Color-coded for quick, visual identification. Color name is also spelled out for additional reinforcement
- Available in 9 colors that coordinate with the Broselow System
- Playful kangaroo design for pediatric patients
- Features patented SecurSnap® tamperproof closure for added security
- One size fits all. Fully adjustable
- Overall wristband length 10-1/4"
- 250 wristbands per box

The Broselow® Pediatric Resuscitation System is an easy-to-use, color-coded information and reference kit that provides doctors and nurses with the proper equipment sizes, pre-calculated medication dosages, and infusion rates needed to perform resuscitation on a child according to weight.

Breast Milk Print-On-Demand Labels

This label can be printed to include patient ID information and bar codes using most thermal transfer printers.

Breast milk can carry bloodborne pathogens and is susceptible to microbial bacteria. Proper identification, storage, and handling are critical to protect the health and safety of newborns and to help prevent errors in administering breast milk.

- Durable synthetic material resists moisture to protect patient data and bar codes
- Compatible with most thermal transfer printers
- We also carry thermal transfer ribbons for your printer

Bundle of Joy

Deliver Big Smiles to the Whole Family

Help relatives celebrate and participate in the family's newest arrival.

L&D nurses have shared with us that every day they are part of a celebration. They go to great lengths to make the birthing experience memorable and special for patients and their families. Delight them by providing Bundle of Joy wristbands and stickers for newborns' closest relatives. Families that have a positive, memorable experience in the L&D unit are more likely to share their experience with others and to choose the same hospital for future medical care.

Bundle of Joy® Wristbands

Proud family members deserve fun and colorful wristbands to celebrate baby’s arrival and their new role. Wristbands are durable enough to last for days to let everyone know the exciting news. One size fits all. 250 wristbands per box.

Bundle of Joy® Stickers

Cute and playful stickers announce baby’s arrival! Made with glossy, high quality stock.

Innovation & Ease

Helping to create a more comfortable and enjoyable experience for new moms and babies.

At PDC Healthcare, we know that it's the little things that can make a big difference. On the following pages, you will find a few of our most simple and innovative products to help new moms and babies alike feel more comfortable during their stay.

Both new moms and babies are experiencing many changes to their bodies in the hours and days after childbirth. Now you can help make their stay with you even more comfortable and enjoyable. Whether it's issues with breastfeeding or a place to set down their clothes, you'll be their saving grace when you say, "Yes, we've got something for you!"

Cold Therapy Gel Pads

Spee-D-Cool™ Gel Pads

Reduce a new mom's discomfort after breastfeeding.

New mothers may experience intense and painful breast engorgement, lasting for up to two weeks post-delivery. These cooling and soothing gel pads can be used between feedings to help decrease swelling and soreness.

- Stays soft and pliable when cold
- Safe for both mom and baby
- Reusable and stays cold for up to 30 minutes

Breast Binders

Relief and support for breastfeeding moms.

Stylish and feminine breast compression binders provide much needed relief from discomfort for breastfeeding and non-breastfeeding mothers alike. Prevent stretching of breast skin and tissue, while allowing easy access for breastfeeding. Helpful for swollen, engorged, and sore breasts.

- Easy to apply and comfortable to wear
- Made from moisture-wicking 100% dri-release materials
- Machine washable and latex-free
- Free breast binder straps with every order

Custom Solutions

PDC Healthcare Specializes in Custom Solutions

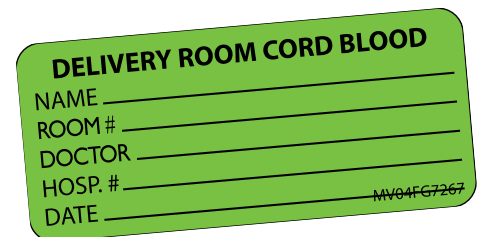

Many of our products can be customized to meet the unique needs of your facility or application. We offer comprehensive customization from adding your organization's logo or text to designing a specific format, adhesive, or other functional design element.

- Minimum order quantities apply
- You can supply the artwork with your order or our Graphics Department can help create the design
- Custom printed products are not returnable

Custom Labels

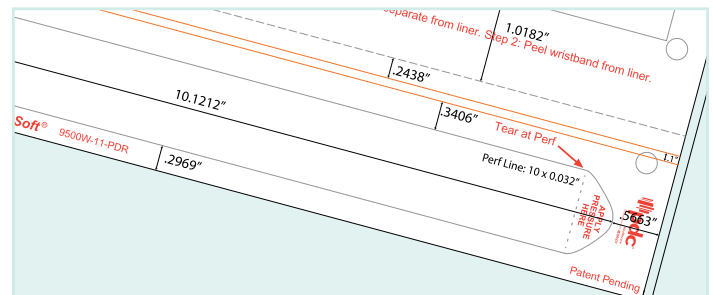

Printed labels can boost workflow, reduce errors, and improve caregiver communication compared to a handwritten labeling system. Simply provide us with your specifications, and we will create an economic custom labeling solution to meet your facility's specific needs.

- Reduce errors by clearly communicating your message
- Choose from one of our fluorescent or brightly-colored materials

Custom Wristbands

While most of our Mother & Infant wristbands are either print-on-demand or feature pre-serialization, other customization options are available. PDC Healthcare's Ident-A-Band® wristbands are all custom printed with your hospital name and city/state. Also, DuraSoft® TenderCare® Laser Patient ID formats can be customized per your specifications, based upon minimum quantities.

Custom Belongings Bags

Promote your hospital or organization with custom printed bags. Providing patient belongings bags shows you care for your patients, so why not add your hospital name and logo? Patients tend to reuse the bags too—making your name visible to potential referrals! Choose up to four ink colors.

Convenient Ordering Options

EDI for Efficiency

We've contracted with GHX, Global Healthcare Exchange, to offer our customers the ability to process orders through EDI for faster ordering and processing time. EDI also reduces ordering errors and discrepancies and allows you to quickly and easily manage your orders with greater visibility and control.

Customer Service for a Personal Touch

Your dedicated PDC Healthcare customer service representative will handle every stage of your ordering process knowledgeably, efficiently, and courteously. We're available to answer your questions and guide you through selecting the right solutions.

Call: **877.942.9945** Fax: 800.321.4409

Business Hours: Monday – Friday, 6:30am – 4:30pm PST
(closed for major holidays)

DIY Online Ordering

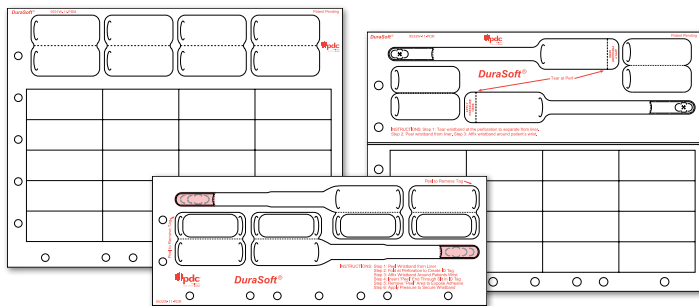

Order any time of day when it's most convenient for you! Simply login to access your contracted pricing and use the My Account 360° tool to view orders, track shipments, and manage your favorite products. Live Chat help is also available.
