A **BRADY** Business

Tired of spending valuable time and money on misidentified specimens, redraw samples and repeat testing? StainerShield® slide labels are a simplified solution to the complex problem of properly identifying and tracking specimen slides in a laboratory environment. Lab technicians can now print on-demand, patient-specific labels and apply them to tissue and specimen slides as the slides are produced, before they go through the stainer. No over-laminate flap, UV ink, or etching system is needed.
These labels can be printed on-demand using standard desktop thermal printers. In one simple printing step, technicians can print slide labels with both text and bar codes — including 2D bar codes — that contain data directly from the lab's information system.
StainerShield® Slide Labels are Xylene and Stain Resistant

Product Number	Label Size	Carrier Width	Core Size	Wound	Max OD	Material/Adhesive	Qty.
TDSS1-1-7878			1"		4-13/32"		
TDSS15-17878	7/8" x 7/8"	1"	1-1/2"	In	4-13/32"	StainerShield® Direct Thermal/Glove-Friendly Permanent	1,800/Roll-4Rolls/Box
