# Steri–Tamp® Belly Button Bag Port Instructions
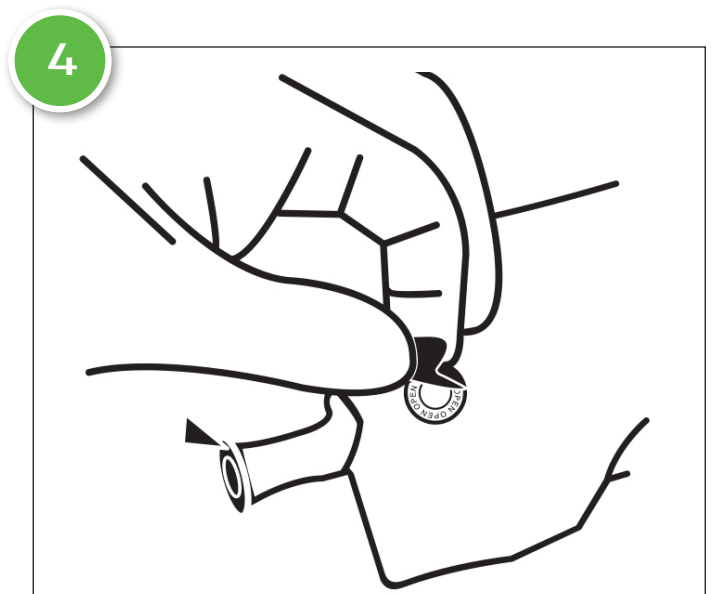

1

Remove Steri–Tamp® from liner.

2

Position the registration mark over the center of the injection port.

3

Press with thumb to firmly affix to port.

4

Upon removal, the top layer will separate from adhesive ring.

Steri–Tamp® may provide assistance in monitoring whether injectable products have already been used by indicating "OPENED" when the metalized layer is removed. Steri–Tamp® cannot be a substitute for good hospital practice and procedures. PDC Healthcare does not guarantee or warrant sterility of the medications with which Steri–Tamp® may be used.

STERILE: Contents have been GAMMA sterilized. The target area remains sterile until removed from liner.
