

Positively Identify Newborns & Parent(s) with Ultra-soft Thermal Wristbands

For more than 55 years, hospitals have placed their trust in PDC Healthcare to provide positive identification solutions for newborns. The TenderCare Thermal Newborn ID System helps ensure that every newborn is properly identified and matched to their parents. TenderCare provides single-step, on-demand printing of bar coded patient ID wristbands to deliver positive identification and a streamlined workflow.

Product Features:

- Ultra-soft material for delicate newborn skin
- Tamper-resistant adhesive closure
- Exclusive, patented 4-part wristband system positively identifies baby with mother and father or designated family member
- Provides fast, accurate, on-demand printing with a thermal printer
- Patented PermaPrint® surface provides best imprint quality, maximum resistance to solvents, and seamless printing
- Supports text, linear and 2D bar codes, photo ID and graphics for superior legibility and bar code scanning
- Latex-free, phthalate-free
- Meets The Joint Commission's National Patient Safety Goals for improving the accuracy of patient identification and improving the effectiveness of communication among caregivers
- Complies with the guidelines of HIPAA to protect patient privacy and AHA to minimize the chance of lost or transferred data

First and only Thermal
4-part Newborn
Wristband Solution!
