Thermal Patient ID Wristbands

Improve Patient Safety with Bar Coded Patient ID Wristbands
Thermal Patient ID Wristbands

Positive patient identification is the foundation of patient safety. From patient admission and throughout the hospital continuum of care, accurately matching the patient to the correct medication, specimen, test, and procedure is critical to positive outcomes. PDC Healthcare’s thermal wristbands use bar code technology to help prevent human errors to improve patient safety and enhance workflow.

Meet Critical Patient Safety and Regulatory Guidelines

- **Joint Commission National Patient Safety Goals**
  - Goal #1: Improve the accuracy of patient identification
  - Goal #2: Improve the effectiveness of communication among caregivers
  - Goal #3: Accurately and completely reconcile medications across the continuum of care

- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

- **Health Insurance Portability & Accountability Act (HIPAA):** to protect patients’ medical records and other information

- **Five Rights of Medication Administration:** to ensure the right patient, drug, dose, route, and time.

- **Centers for Medicare & Medicaid Services (CMS):** Stage 2 meaningful use requirements to use assistive technologies with eMAR (electronic medication administration record).

**Patented PermaPrint® Technology Maximizes Print Performance**

- **Best Print Quality:** Heat is transferred directly and evenly along the wristband, resulting in consistent heat energy, high-quality print and images, and superior bar code scanning

- **Resistance to Solvents and Harsh Environments:** Laboratory tests have proven that PDC Healthcare’s wristbands are more resistant to light, moisture, and solvents

- **Printer-Friendly:** While traditional thermal ID products need higher temperatures and can transfer varnish to the print head, PermaPrint® helps extend the life of your printer, even with high-speed prints

**Product Features**

- **Compatible with most direct thermal printers to produce crisp, accurate bar code wristbands on demand**

- **Specially designed for durability and to resist moisture, alcohol, and hand sanitizer to preserve patient data and bar codes**

- **Quick and easy to print and apply to patients**

- **Patented PermaPrint® surface provides the best imprint quality, maximum resistance to solvents, and seamless printing**

- **Soft, smooth, and lightweight material for patient comfort**

- **Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria**

*PDC Healthcare’s thermal wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.*
Partner with the Identification Experts

No one understands the critical role of positive identification better than PDC Healthcare, which has been trusted by the leading hospitals and medical centers for nearly 60 years. More than 80% of hospitals nationwide depend upon PDC Healthcare’s patient identification wristbands. That’s more than all our competitors combined.
ScanBand® Direct Thermal

- Best-selling thermal wristband on the market is designed to perform in most thermal printers
- Tamper-evident, adhesive closure

CompuBand® Direct Thermal with Snap Closure

- Includes tamper-proof, single-post snap closures to prevent wristband transfer to another patient. Snaps also sold separately.
- Compatible with PDC Healthcare’s color-coded alert snaps to identify at-risk patients and communicate special precautions to caregivers (sold separately). Reduce costs and waste by consolidating multiple wristbands into a single admission wristband.

CompuBand® Adult/Pediatric Direct Thermal

- Soft CompuBand® features softer material on 7023S, 7024S, and 7029S

Ident-Alert® Color Coded Snaps

- Compatible with CompuBand® Adult wristbands
- Quick and cost-effective method to identify and classify special patient conditions
- Classify multiple patient conditions—all on one PDC Healthcare wristband
- Soft, flexible material with rounded edges for patient comfort

Best if used with following PDC Healthcare wristbands: 7041, 7041S, 7043, 7043S, 7049, 7049S, 7055, 7340, 7341, 7342, 7050, 7056, 7550.
Access the widest selection of thermal labeling solutions for lab, pharmacy, admissions, and more!

*Custom solutions also available.*

Streamline Lab Workflow with LIS Labels Designed for Leading Laboratory Information Systems

No matter the LIS and printers you use, we have the largest selection of compatible labels. Enhancing optimal workflow efficiencies, our robust LIS label line includes a variety of solutions for Sunquest, Cerner, MEDITECH, SoftLab, and others.

Identify and Manage Medications Across the Continuum of Care with Pharmacy Labeling Solutions

Compatible with pharmacy information systems and automated dispensing systems to provide seamless integration and interoperability with Cerner, MEDITECH, MediWare, OptiFill®, Pyxis® MedStation™, ScriptPro®, VA Hospital, and others.
