**Do You Know Who is Roaming Your Halls?**

You Need to Because Healthcare Workers are 5x More Likely to be Victims of Violence than All Other Occupations Combined*

---

**Increase Security & Meet Joint Commission Standards with PDC Healthcare’s TEMPbadge® Visitor Management System**

The Joint Commission issued a Sentinel Event Alert #45 for "Preventing violence in the health care setting" which emphasized that in light of steadily increasing crime rates, a secure hospital campus is vital to the safety of your patients, staff, and visitors. As a public institution, your facility may usher in dozens or hundreds of visitors every day. That’s why protocols for visitor management are so crucial to safety.

The TEMPbadge® Visitor Management System is a turnkey solution for fast and easy visitor identification. The system includes TEMPbadge® Visitor Management Software, a direct thermal printer, and self-expiring badges so you can quickly check-in visitors and print badges on demand.

- **Identify Visitors in Just 5 Seconds**
- **Maximize Security with Self-Expiring Badges**
- **Implement with Ease (no IT integration)**
- **Comply with Joint Commission Regulations**
  - EC.02.01.01, EP #7 states: "The hospital identifies individuals entering its facilities."
- **Customize to Fit Your Needs**
- **Generate Reports On Demand**
- **Give Peace of Mind to Patients & Staff**

**Why Security Matters**

**Crime in Healthcare Facilities is on The Rise!**
- 37% increase from 2010-2012
- 98% of healthcare facilities experience violence and criminal incidents

**Workplace Violence Affects More Healthcare Workers than Private Sector Workers**
- The healthcare sector leads all other industries in incidence of workplace violence
- Healthcare and social workers are five times more likely to be the victim of a non-fatal assault or violent act than the average worker in all other occupations combined
- Nearly 60% of all nonfatal assaults in the U.S. workplace occur in the healthcare industry
- In 2010, healthcare and social workers were victims of 11,370 assaults
- Almost 1/3 of nurses are subjected to assault at least once per month

**Security Protects from Theft (medication, equipment & data)**
- Comply with Government and Accreditation Regulations, including Joint Commission, OSHA, HIPAA, etc.
- Give peace of mind to staff, patients, and visitors
  - When they see a visitor with a pass, they can be assured your visitor protocol is followed for their safety

**Best Practices for Managing Visitor Identification**
- Actively manage security policies and procedures and measure compliance
- Control access to high security areas or departments that are your biggest concern, such as L&D, ICU, NICU, etc.
- Choose a visitor management system that meets your security and compliance objectives
- Use self-expiring badges to increase security by preventing re-use
- Partner with a reputable identification solutions company, such as PDC Healthcare, which is trusted by over 5,500 U.S. hospitals for our products, people, and services
