Healthcare

A Brady Business  **BRADY**

Where positive identification
meets safe, efficient patient care.

The New PDC Healthcare

PDC Healthcare is the result of the merger of two industry leaders and pioneers in healthcare: Precision Dynamics Corporation (PDC) and The St. John Companies.

PDC Healthcare has been a trusted partner to healthcare organizations for more than 55 years, providing superior identification solutions for the safe and efficient management of patients. While we've refreshed our brand and visual identity, our company's founding principles of superior service, quality, and innovation remain stronger than ever!

Positive Identification is the Key to Patient Safety

Positive patient identification provides the foundation for patient safety through the systematic prevention of manual errors. It has an effect on virtually every aspect of clinical care:

- The patient experience
- The efficiency and convenience of the patient care process
- The satisfaction of nurses, physicians, and staff

These outcomes can all be tied back to one thing: The quality of your identification solution. PDC Healthcare offers the most extensive selection of wristband and label solutions in healthcare to help protect patients and improve clinical outcomes at critical points in the delivery of care.

More hospitals trust PDC Healthcare products to accurately identify, track, and connect their patients to all major hospital functions—from admissions to discharge. Designed with both patient and caregiver in mind, our products help improve efficiencies, while saving time and resources so caregivers can spend more time on patient care.

Our products are also designed and tested to high medical-grade quality standards for maximum safety, strength, and durability (see p. 3). Each product is born of thousands of hours of rigorous research and testing to provide the most reliable and highest performing products available.

Service You Can Count On. Easy Ordering Options. Brand New Website.

PDC Healthcare understands the business challenges of today's healthcare organizations like no other company.

Our customers receive expert consultation and service from seasoned specialists in the industry. Our integrated Customer Service and Account Management Team provide 100% customer satisfaction—before, during, and after your order.

Through multiple ordering options, PDC Healthcare is fully accessible to our clients and always open for business.

EDI

Many of our customers use EDI (Electronic Data Interchange) via GHX (Global Healthcare Exchange) for increased efficiency and cost savings. EDI streamlines inventory operations by tying manufacturing to actual demand, allowing for just-in-time delivery. Ask your Customer Service Representative about getting started today.

Toll Free Customer Service

Your dedicated PDC Healthcare Customer Service Representative will handle every stage of your ordering process knowledgeably, efficiently, and courteously. Call 800.435.4242 or email info@pdchealthcare.com today.

New Website

Get 24/7 access to the products and services you need. Our new www.pdchealthcare.com website integrates the products that were on separate sites for PDC, St. John, TimeMed, and Pharmex® for a streamlined user experience. With a modern look and enhanced features, the website provides improved navigation, search tools, and ordering functions, including new **My Account 360°** instant account access.

A Passion for Patient Safety

With as many as one million people injured from errors during hospital treatment each year,* patient safety continues to be among the healthcare industry's top priorities. PDC Healthcare's positive identification solutions help healthcare institutions protect patients, reduce risk, and adopt best practices to achieve compliance with important regulations, as listed below. In fact, the top-rated and safest hospitals in the U.S. choose and rely on PDC Healthcare products and services.**

■ The Joint Commission National Patient Safety Goals

- Identify Patients Correctly
- Improve Staff Communication
- Use Medicines Safely
- Prevent Infection
- Identify Patient Safety Risks
- Prevent Mistakes in Surgery

■ Centers for Medicare & Medicaid Services (CMS) Stage 2 Meaningful Use Requirements

■ Health Insurance Portability and Accountability Act (HIPAA) for protection of patient privacy

■ Food and Drug Administration (FDA) for patient identification

■ American Health Association (AHA) to reduce the risk of lost or transferred data

Identification Solutions that Support You.

You can't deliver patient care safely and effectively without a system in place that provides accurate and timely identification. PDC Healthcare products reach every touch point in the delivery of care—from admissions to discharge. We continue to innovate with new solutions for all major areas of healthcare, including:

- Patient Identification Management
- Patient Safety & Privacy Management
- Electronic Health Record (EHR)
- Bar Code Point-of-Care
- Electronic Medication Administration Record (eMAR)
- Blood Administration
- Specimen Collection & Management
- Computerized Physician Order Entry (CPOE)
- Revenue Cycle Management
- Patient Alert Standardization
- Visitor & Vendor Management
- Patient Flow Management
- Automated Management of Medication Guides

Media Matters™ in So Many Ways

As a gatekeeper for quality care, the wristband and label are the only items that remain with a patient throughout his/her hospital stay, connecting the patient to all major hospital functions.

The right wristband and label media can determine the success or failure of your patient ID system. Don't risk patient safety by using inferior ID products, or products not designed for healthcare application.

Delivering medical grade quality, PDC Healthcare media provides superior:

1. Safety & Security with multiple closure options and tamper-evident material that prevent the transfer of wristbands, while meeting critical regulatory compliances.

6. Printing Performance to facilitate jam-free printing through smooth and seamless feedability—every time—while prolonging the print head.

2. Compatibility with each unique application, products are designed to meet specific environmental requirements (NICU, laboratory, long-term care, x-ray, etc.).

7. Workflow Efficiency Streamline steps at point-of-care, providing convenience for caregivers so they can focus more time on caring for their patients.

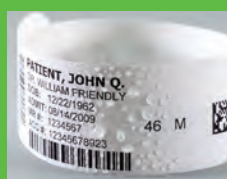

3. Scan Reliability to deliver consistently accurate scan rates for positive patient identification and tracking.

8. Selection of Wristband Sizes to fit all shapes and sizes of patients, from the smallest newborn babies to the largest adults.

4. Durability to stand up to the test of time and maintain effectiveness throughout the patient's full stay.

9. Resistance to Common Fluids including 70% Isopropyl alcohol, alkaline detergent, hand lotion, hand sanitizer, and Iodine.

5. Comfort with smooth, soft materials that have contoured edges that are safe and comfortable against even the most delicate patients' skin.

10. Antimicrobial Coating protects wristbands from non-pathogenic, odor-causing bacteria, preventing degradation and discoloration, which can effect the legibility of patient information, the accuracy of bar code scanning, and the comfort and satisfaction of patients.

Bar Code ID Solutions

PDC Healthcare developed the first Bar Code Wristband System in 1984. Today, more hospitals choose our Bar Code Wristbands than any other system in the world. Before choosing a system, consider PDC Healthcare's experience, expertise, and proven advantages. We offer the highest quality, most reliable Bar Code ID Solutions in healthcare today that meet important patient safety regulatory requirements, as listed below.

Choose from the following products:

- Thermal Printer Wristbands & Tags print in mere seconds through direct thermal printers.
- Laser Printer Wristbands & Labels provide excellent printability and scannability, while protecting printed information from smearing or bleeding.
- Insert Style Wristbands feature convenient pockets to protect patient data.

Our Bar Code ID Solutions provide medical-grade quality for maximum durability, safety, and security.

Bar Code ID Solutions help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Centers for Medicare & Medicaid Services (CMS):** Stage 2 meaningful use requirements to use assistive technologies with eMAR.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

BAR CODE SUPER SOFT DIRECT THERMAL WRISTBANDS

Maximum Comfort Meets Maximum Performance

For Alert Snap options,
see pages 59–60.

Our new ComfortBand™ is specially designed for patients with delicate skin. It provides superior comfort with softer material and a contoured shape. ComfortBand™ is available in multiple sizes to meet the needs of the entire patient population, from geriatrics to infants.

ComfortBand™ Features:

- Softer material is comfortable for even the most delicate skin
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Tamperproof double-post snap closure for security (Adult includes double-post snaps; Infants include single-post heart-shaped snaps.)
- Contour-shaped band comfortably conforms to the wrist
- Large information area

ComfortBand™ Performance:

- Patented PermaPrint® surface provides best imprint quality, maximum resistance to solvents, and seamless printing
- Supports text, linear and 2D bar codes, photo ID and graphics
- Ensures crisp, clear bar codes for easy scannability
- Compatible with most direct thermal printers

*PDC Healthcare ComfortBand™ Wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

ALL WRISTBANDS ARE LATEX & PHTHALATE-FREE.

Exclusively approved and specially designed for use with the Epson SecurColor™ printer

Inkjet Wristband Features:

- Preferred wristband media for the Epson SecurColor™ inkjet color printers
- Extensively tested and verified for compatibility and consistent performance
- Available in snap and adhesive closure options
- Print patient identification information with bar codes, alerts, photo, and graphics directly on the wristband using the Epson SecurColor™ color printer
- Extra smooth, soft material is ideal for patients with sensitive skin
- Latex-free, Phthalate-free, and PVC-free for patient safety
- Wristbands are 100% recyclable to minimize environmental impact
- Print more than 1,500 wristbands using only a single ink cartridge

Inkjet Wristband with Adhesive Closure

- Adhesive closure allows you to print entire length of the band.
- Can be used with foil tamper-evident label which leaves behind the words "VOID" when removed. (Army Branch shown at right. Also available with Navy, Air Force, Marines, Coast Guard Insignias and Blank.)

BAR CODE ID SOLUTIONS

BAR CODE COLOR LASER WRISTBANDS

ClarID™ Color Laser Wristbands – Specially designed for VA Hospitals to print color laser patient ID wristbands on demand.

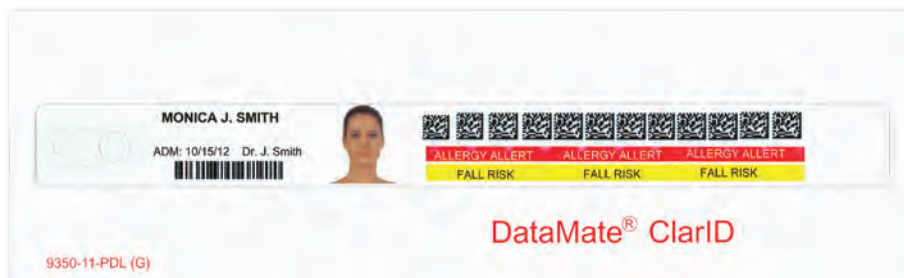

PDC Healthcare introduces ClarID™ color laser patient ID wristbands which print on-demand using a color laser printer to print patient photos, color code alerts, bar codes, and text directly onto the wristband. This maximizes patient safety by providing bar code automated identification and supporting color code standardization initiatives.

If you're already using a comparable laser printable ID product, you can seamlessly switch to ClarID™ without IT reformatting..

ClarID™ Wristband with Adhesive Closure

- Scans first time, every time
- Jam-Free™ printing!
- Quick and easy application streamlines the admission process
- Tamper-evident adhesive closure prevents transfer from one patient to another
- Optional single post snap closure can be ordered separately to provide an extra measure of security
- Extra smooth, soft material and contoured edges for patient comfort. Latex-free & Phthalate-free
- Tested and verified by the VA hospital in Washington, DC, ClarID™ lasts up to a month, withstanding moisture, alcohol, and hand sanitizer to preserve patient data and bar codes
- Use Ident-Alert® color coded alert snaps for special precautions (sold separately). Ideal when new alerts are identified to prevent re-banding a patient
- Can be used with foil tamper-evident branch insignia label which leaves behind the words "VOID" when removed. (Army Branch shown below. Also available with Navy, Air Force, Marines and Coast Guard Insignias.)

See page 17 for tamper-evident labels.

Introducing DuraSoft®

Inspired Softness.

Discover DuraSoft®, a softer laser ID solution inspired by customer demand for a lightweight laser wristband that's more comfortable for patients and soft enough for even the most delicate skin.

Practical Convenience.

Without a stiff, cumbersome laminate overlay, applying DuraSoft® to patients is fast and easy, allowing caregivers more time for patient care. DuraSoft® streamlines steps in the admissions process to reduce wait time and increase workflow efficiency. And because it's paper-based, DuraSoft® performs like a saint in virtually any laser printer.

DuraSoft® Laser Patient ID System: Easy as 1-2-3

1. Print

Easy drop-in replacement works with your existing laser printer and format so there's little to no change needed. Jam Free™ printing in virtually any laser printer.

2. Remove

+ No laminate shields to fold and stick
+ No assembly needed

= Quick & Easy

3. Apply

Fast and easy application saves nursing and admission staff time to improve workflow efficiency and allow more time for patient care.

Meet Stage 2 Meaningful Use Requirements with eMAR*

Using DuraSoft® as part of your electronic medication administration record (eMAR) system can help you meet meaningful use requirements established by the Centers of Medicare & Medicaid Services (CMS) for Electronic Tracking of Medications.

*To meet CMS Stage 2 Meaningful Use requirements, hospitals must automatically track more than 10 percent of medication orders using assistive technologies, such as bar code or RFID, with an electronic medication administration record (eMAR). Failure to meet regulations can result in significant incentive payment penalties in fiscal year 2015.

PDC Healthcare DuraSoft® Wristbands eliminate more than 99% of non-pathogenic bacteria within 24 hours, based on independent laboratory testing.

BAR CODE ID SOLUTIONS

BAR CODE LASER PRINTER WRISTBANDS & LABELS

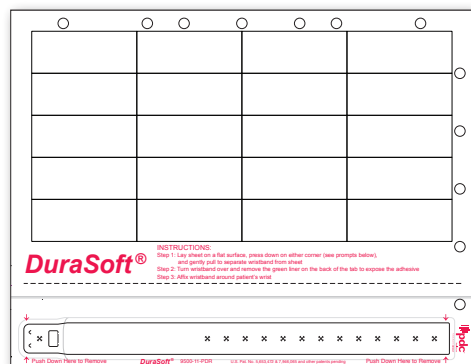

DuraSoft® Features.

- Ultra soft and smooth wristband material provides patient comfort and durability for up to 15 days
- Quick and easy application saves nursing and admission staff time to improve workflow efficiencies
- Easy drop-in replacement works with your existing laser printer system and format so there's little to no change required.
- Secure, tamper-evident adhesive closure
- Patented design featuring unique cross-cuts provides additional options:
 - Optional color-coded alert snaps to identify special-risk patients (See page 59)
 - Optional plastic snap closure for additional security (See page 60)
- Antimicrobial additive protects wristband surface against tested non-pathogenic bacteria*
- Superior Bar Code Scanning. Excellent scan rates for linear and 2D bar codes
- Moisture-resistant. Specially designed material resists moisture, alcohol, and hand sanitizer to preserve patient data and bar codes. Latex-free and Phthalate-free.
- Jam Free™ printing with laser printers
- Standard file holes make it easy to add the laser sheet to a chart or binder

BAR CODE ID SOLUTIONS

BAR CODE LASER PRINTER WRISTBANDS & LABELS

DataMate® Laser Printer Wristbands and Labels

The DataMate® system consists of a laser-printable wristband with adhesive closure and labels that adhere to patient records. The wristband's clear, fold-over protective window is designed to prevent printed information from smearing and bleeding to assure error-free reading/scanning. Single-piece construction allows you to print wristbands and labels from the same laser tray.

DataMate® Laser Wristband and Labels

- Wristband's clear, fold-over protective window is designed to protect information from smearing and bleeding
- Accepts linear and 2D bar codes
- One wristband designed for adults with additional labels for duplicating patient information
- Available with tamper-Kimevident slits to promote patient safety

Imprinter Wristbands

Imprinting patient information on wristbands is an important standard for many Healthcare organizations using blue card embossers. PDC Healthcare’s Imprinter Wristbands feature a specially designed ClearImage® imprinter surface which protects handwritten and embossed information.

PDC Healthcare developed the first Imprinter Wristband in 1982, and we now offer the most extensive line available in adult, adult/ pediatric, and infant sizes. Choose from multiple materials, including soft vinyl, tri-laminate, and non-stretch polyester.

Choice of closures includes snap, adhesive, and re-adjustable. Imprinter Wristbands can be imprinted with custom information upon request.

Imprinter Wristbands provide medical-grade quality for maximum durability, safety, and security.

Insert Wristbands & Cards

Protect valuable patient information with PDC Healthcare’s Insert Wristbands. They feature convenient pockets to protect patient data on insert cards and labels from smearing, wrinkling, or scratching.

Select from bands made from multiple materials, including smooth soft vinyl and tri-laminate which will not scratch delicate skin. Choose from patented SecurSnap® adhesive or metal closures and five sizes: Adult, Adult/Pediatric, Extra-Wide, Super-Wide, and Infant.

Insert Wristbands & Cards provide medical-grade quality for maximum durability, safety, and security.

Insert Wristbands & Cards help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients’ medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Mother–Infant Wristbands

L&D and NICU departments face the daily challenge of caring for the most valuable and fragile patients. To ensure that every newborn is properly identified and matched to their mother, hospitals place their trust in PDC Healthcare’s line of Mother–Infant Identification Wristbands.

Wristbands are available in two-part, three-part, and four-part designs. Choose from Insert Style (with protective pockets for insert cards) or Imprinter Style (for printing and writing directly on the wristband). Wristbands feature smooth, soft material, which is comfortable and safe for sensitive skin. They can be ordered with the following closure options: non-transferable SecurSnap®, adhesive, or readjustable.

Precision® Neonatal Wristbands meet the needs of patients in the Labor & Delivery and NICU Departments. PDC Healthcare’s new Bundle of Joy™ Wristbands proudly show family members’ relation to their newest addition.

Mother–Infant Wristbands provide medical-grade quality for maximum durability, safety, and security.

Mother–Infant Wristbands help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients’ medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Consecutive Numbering

Mother-Father-Baby (OB) Bands

Consecutive numbering is available in seven formats below. All bands within each set are imprinted with identical numbers. Numbers must appear next to the clip seal.

1. Four digits (0001 to 9999)*
2. Five digits (00001 to 99999)*
3. Six digits (000001 to 999999)*
4. Alpha followed by five digits (A00001 to Z99999)
5. Digit, alpha, four digits (0A0001 to 9Z9999)
6. Double alpha followed by four digits (AA0001 to ZZ9999)
7. Single alpha followed by four digits (A0001 to Z9999)

*The leading zeros can be suppressed if desired.

Precision® Neonatal Wristbands

The Precision® Neonatal Wristband helps meet the special needs of patients in the Labor & Delivery and NICU Departments. Available in two sizes, this movable ID band offers newborns and preemies the highest quality, convenience, and comfort.

- Constructed of soft, comfortable foam
- Secures with hook & loop Velcro® style closure
- No cutting necessary
- Blank ID panel accepts handwritten information or label (up to) 2-5/8"
- Easily repositioned on wrist or ankle to accommodate IV site changes
- Ensures ID band is present on limb instead of taped to incubator, guaranteeing positive patient identification

MOTHER-INFANT BANDS

Write-On & Short Stay® Wristbands

Short-term hospital applications such as the ER, same-day surgery, and outpatient require patient identification that is accurate, reliable, economical and efficient for busy, fast-paced environments.

PDC Healthcare's flexible and versatile Write-On and Short Stay® Wristbands allow for easy application of important patient data. Our Write-On & Short Stay® Wristbands are offered in a wide range of materials and colors and are available with either snap or adhesive style closures. Wristbands provide medical-grade quality for maximum durability, safety, and security.

Write-On & Short Stay® Wristbands help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Alert Bands®

The Healthcare community has recognized the urgent need for standardized color code indicators to identify special risk patients. Reports from staff members using color code indicators demonstrate a high satisfaction rate, providing a positive impact on patient safety.

PDC Healthcare's Alert Bands® and Snaps feature highly-visible, color-specific identification alerts to warn caregivers of special precautions. They're a quick, easy, and cost-effective way to meet state standardization. PDC Healthcare's Alert Bands® and Snaps are latex-free.

Many states have already implemented standardization protocols. Does your hospital have a standardized system? Visit www.alertbands.com today to view important state information color coding initiatives that may effect your hospital.

Alert Bands® provide medical-grade quality for maximum durability, safety, and security.

Alert Wristbands help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.

IDENT-ALERT® COLOR CODED SNAPS

Ident-Alert® Color Coded Snaps

Accurate patient classification is a snap with Ident-Alert® Color Coded Snaps from PDC Healthcare. Use with our snap closure wristbands to quickly and cost-effectively identify special patient conditions.

- Provide convenience by allowing caregivers to classify multiple patient conditions—all on one PDC Healthcare wristband
- Soft, flexible material with rounded edges for patient comfort
- Enhance patient safety with large, easy-to-read text that identifies at-risk patients
- Locking SecurSnap® safety feature prevents transfer of alert to another patient
- If there is a change in a patient's condition, the Ident-Alert® Snap can be removed using safety scissors without destroying the admitting wristband
- Blank and customization available

For blank and custom imprint options, call (800) 435-4242.

Tape Dispenser — the perfect partner for all alert labels!

Single and Multiple Roll Dispenser	
Product Number	Description
HD-2	Hand-held tape and label dispenser. Holds a variety of tape and/or label products up to a total of 1-1/8". Includes 2 spacers and a plastic clip to lock dispenser. Can be used as a single or multiple roll dispenser with pre-dispensing label mode.

Alert Logos:

Use custom logos to communicate specific alert conditions. Alert logos can be printed on most PDC Healthcare wristbands; however, we recommend using the Sentry® SuperBand® series (page 56).

Blood Bands & Forms

According to the FDA, there is an average of 414 transfusion errors in the U.S. each year, or about one per 38,000 transfusions. Match the right patient to the right blood every time with PDC Healthcare’s Blood Bands and Forms, which use alpha and numeric serialization for positive identification.

Securline® Hybrid Bar Code Blood Bands: Use bar code and serialized alphanumeric codes to automatically match the right patient to the right blood. Provides superior scanability, safety, and security.

Securline® Hybrid Blood Band and Blood Band Plus: Soft tri-laminate wristband features 23 easy-peel labels and tamperproof SecurSnap® closure for maximum safety. Blood Band Plus features a peel-off adhesive tail that applies to draw tubes.

Ident-A™ Blood Recipient System: To help ensure that proper ID procedures are followed, this system includes crossmatch reports, along with wristbands with pre-numbered insert cards, label sheets and requisition forms.

Securlink® Blood Recipient System: Links the patient, transfused blood, and all related paperwork to assure safe and complete blood transfusion. Choose from the full system containing Blood Bands and Securlink® Forms or order bands and forms separately.

Blood Bands & Forms provide medical-grade quality for maximum durability, safety, and security.

Blood Bands & Forms help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Centers for Medicare & Medicaid Services (CMS):** Stage 2 meaningful use requirements to use assistive technologies with eMAR.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients’ medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

BLOOD BANDS

BAR CODE HYBRID BLOOD BANDS

Bar Code Hybrid Blood Bands

- Larger font size
- Fits adults & pediatrics
- Patented dual-purpose, hybrid style lets you handwrite information or use with your LIS label
 - Standardize and consolidate to a single blood band, even if you have multiple labs
 - Downtime solution allows you to hand write information on the band as a back-up method
- Designed for inpatient or outpatient use
- Laminate shield protects patient information and bar code from water or solvents for accurate bar code scanning
- Advanced material resists moisture, alcohol and hand sanitizer to preserve bar code integrity for accurate scanning
- V-Notch™ patient ID label ensures proper placement on BD Vacutainer for bar code scanning and visibility of tube color
- Meets **The Joint Commission's National Patient Safety Goal** for blood transfusions for a one-person verification system!

Securline® Bar Code Hybrid Blood Bands help provide maximum safety and security!

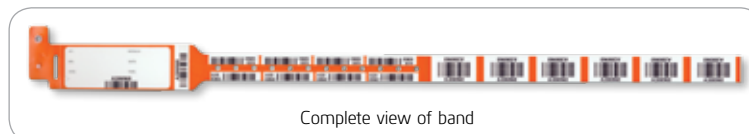

Using bar code and serialized alphanumeric codes, the Securline® Bar Code Hybrid Blood Band accurately matches the right patient to the right blood, ensuring maximum safety throughout the blood transfusion process. It provides unrivaled scanability, safety, and security!

- Streamlines the blood transfusion process and improves patient safety by reducing human errors related to patient identification
- Saves time and money by streamlining the patient ID and blood transfusion workflow
- Integrates seamlessly with existing blood bank system so there's no IT involvement or capital investment
- Custom imprinting available

CUSTOM WRISTBANDS

CUSTOM WRISTBANDS & ARTWORK SPECIFICATIONS

Custom Wristbands

Customize your wristband by having PDC Healthcare print your hospital name, logo, message, or choose from our Funband® characters listed below. Simply call **800.435-4242** to get your order started. Please note the following guidelines:

- Custom imprinted products are not returnable
- Sample layout must accompany order
- Most wristbands can be imprinted with hospital name, serial number, logo, etc.
- Repeat imprints ship within 10 working days
- New imprints are shipped within 10 working days after artwork approval
- Please note that wristband artwork on file will be discarded after two years of account inactivity
- **Minimum order: 2 boxes per imprint per wristband style**
- **Tyvek custom minimum 5 boxes per imprint**
- Pricing: Call Customer Service for pricing information

Examples of custom printing options

Funband® Characters

Customize your pediatric wristbands with Funband® characters. These friendly faces are sure to create many smiles in the pediatric unit! Choose from 9 characters listed below. Contact customer service at **800.435.4242** for pricing and custom imprint information.

Artwork Specifications

Logos: Please submit **CLEAN, BLACK AND WHITE LINE ART**. Tones and screens need to be converted to solids. Broken lines, weak lines, or smeared art cannot be imprinted. **WE CANNOT USE FAXED ARTWORK OR LOGOS COPIED FROM A WEB PAGE**, although our art department may be able to fix lower quality artwork to a certain extent. If black and white line art is not supplied for logos and special designs, you may be billed for art charges.

For customers who wish to send digital artwork via e-mail, we accept these standard graphic formats: eps, ai, tiff, and jpeg (300dpi). Illustrator files and PC format are preferred. Please convert all text to outlines. E-mail to artwork@pdcorp.com. Please include your organization/business name, contact name, and phone number in your e-mail message.

Why do you need black and white line art? The custom printing process involves creating a printing plate of your solid artwork to print onto the wristband. Think of a rubber stamp. A rubber stamp only prints one solid color impression onto the surface.

We cannot use logos/artwork that are copied from a web page as these images are low resolution and will produce a jagged, pixelated imprint.

NO

No tones or screens (gray area).

NO

Art with broken lines, weak lines or smeared or faxed art cannot be accepted.

YES

Artwork needs to be clean, black and white line art.

Admissions Labels

PDC Healthcare's expertise in labeling means that you don't have to waste valuable time "experimenting" with products that might not work for your application. We offer thousands of stock pre-printed and print-on-demand Admissions Labels to choose from. If we don't stock it, custom labels can be created to meet your exact specifications.

General Purpose Admission Labels for patient identification, addressograph, and other plate name imprinters are stocked and available in two blank white paper stocks – a smudge-proof litho for clean flat surfaces and a flexo stock for curved, irregular surfaces. Color-tinted ID labels or those with a permanent adhesive are available on a custom basis.

File Label Solutions can be purchased in a product mix, depending on your specific facility's needs. We carry a variety of Alpha Labels, Numeric Labels, Date Labels, Correction Tape, Correction Labels, and more.

Patient Sign-In Sheets help you securely record your facility's traffic.

Admission Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

Color Code Labels – Product Mix

Please keep in mind that this is just a sample product mix. The full product line can be found online at www.pdchealthcare.com.

ALPHA LABELS

1 Alphabetical Labeling System

Ideal for less than 15,000 patient charts. Files by the individual's last name with no additional cross-referencing.

Pros – Easiest to use since all records are filed by patient's last name.

59702631

59702632

59702633

NUMERIC LABELS

2 Straight Numeric Numbering System

Ideal for fewer than 10,000 patient charts. Files in sequential order starting from the lowest to highest number.

Pros – Arranged from lowest to highest number – provides easy way to retrieve records that are assigned in consecutive order.

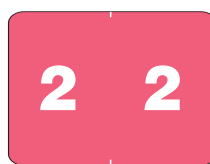

3 Terminal Digit Numbering System

Ideal for approximately 100,000–200,000 patient charts. Files in groups of like numbers segmenting the original number into smaller groups of 100.

Pros – Activity is equally allocated throughout the system. This eliminates concentrated activity and provides equal expansion and reduction (purging) within the system.

59702432

59702433

Anesthesia Labels & Tape

PDC Healthcare's Anesthesia Labels & Tape help address errors caused by the use of unlabeled medications and other procedural breakdowns that can put patients at risk. They adhere to specific guidelines set forth by The Joint Commission, United States Pharmacopoeia (USP), and the American Society for Testing and Materials (ASTM), including:

1. Specific color and format standards for each drug class
2. Appropriate information on each tape/label (drug name, strength, amount, date, time, initials)
3. TALLman lettering to clearly differentiate common look-alike, sound-alike drugs
4. Tape and labels with standard pre-printed concentrations

Our stock, pre-printed Anesthesia Tape and Labels help increase patient safety by delivering higher accuracy in medication administration. If you do not see the anesthesia products needed for your facility, PDC Healthcare can customize any tape or label with the desired information.

Table of Contents

Anesthesia Labels & Tapes	80
Anesthesia Labels & Tapes Custom.....	86
Dispensers.....	86

Anesthesia Tape & Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

ANESTHESIA

ANESTHESIA LABELS & TAPE ALPHABETICALLY LISTED

The following stock drug tapes and labels are available for accurate and reliable labeling of all anesthesia drug syringes. Each tape/label conforms to the nationally recognized ASTM Standard D4774-11(2017) Specification for User Applied Drug Labels in Anesthesiology. This specification covers the size, color, pattern, and type used on labels applied to unlabeled syringes, filled by the users or their agents, to identify the drug content. For custom imprinting options, please see page 86. Copyright ASTM International. All rights reserved.

In addition, tapes and labels meet the published 2013 Joint Commission National Patient Safety Goal 3 to improve the safety of using medications. Common pre-printed medication strengths are available. Tall man lettering helps reduce error due to look-alike/sound-alike drugs.

Tape Products

Product Code: AN-____ or ANS-____
(Use "AN" or "ANS" when ordering tape products)

Materials: Coated paper tape with removable adhesive

Anesthesia Tape and Label Dispenser

Designed specifically to dispense PDC Healthcare Anesthesia tapes and labels. These dispensers are compatible with most anesthesia crash carts. For more information regarding other tape and label dispensers, please see page 156.

Product Number	Description
DSP-HC10	Clear plastic dispenser can hold 10 label rolls. Equipped with 9 clear removable dividers that provide equally separated compartments. Size: (W) 8-1/4" x (H) 5" x (D) 5-1/2"
DPM-16	White metal dispenser can hold up to 16 rolls of 1/2" wide tape. Divided into 4 sections that are 2" wide. Size: (W) 12-1/4" x (H) 3-5/16" x (D) 5"
500P-LAN	Plastic dispenser can hold 15 rolls of Anesthesia tape or label products. Includes inserts, hanging bars and bottom suction cups for secure placement. Size: (W) 12-1/2" x (H) 3-1/2" x (D) 4-1/2"

See Inside Back Cover for a PMS Color Guide of Fluorescent Label Colors on this Page.

Central Service Labels

PDC Healthcare provides an extensive selection of Central Service Labels that communicate important messages among caregivers and staff. Choose from thousands of stock, pre-printed Central Service Labels that communicate pertinent information to identify sterile items, expiration dates, and much more.

PDC Healthcare offers a wide variety of patient charge labels for use with laser, EDP, and thermal printers. Our Keystone Labeling System, which is a stand-alone label printing solution, is the perfect complement to our thermal labels.

Central Service Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

Keystone™ Labeling System

Stand-alone, On-demand Label Printing

- Facilitates label printing for patient charging and product identification
- Not dependent on IS system – labels can still be printed during an IT system failure and do not require a dedicated computer

Simple Plug & Play

- Pre-loaded with label templates and labels

Small Footprint

- Ultra compact keyboard and heavy-duty industrial printer

Large Memory Capacity

- Supports up to 10,000 unique label records

Flexibility

- Supports multiple bar code formats, including 1-Dimensional (Code 39, Code 128) and 2-Dimensional (Datamatrix/PDF 417)

Patient Charge Cards

100# paper cards for all HealthCoder® piggyback labels.
For compatible HealthCoder® Labels, see pages 89-91.

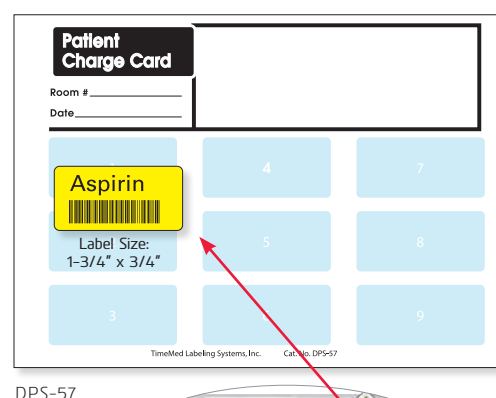

Product Number	Card Size	Card Stock	Qty.
DPSTH-PCC	7" x 5"	100#	250/BX

Our patient charge cards are 100# paper cards for piggyback labels. We carry a large selection of piggyback labels. See pages 88-93.

Piggyback labels are used whenever a label must be applied to one surface and re-applied to another surface. The two-ply construction has a bottom label, which adheres to the chargeable item, and a top label that can be removed from the bottom label and transferred to the patient's charge card.

CS-2® Hand-Held Labeling System

The CS-2® Labeling System has been designed primarily for labeling any items in Central Service/Sterile that need to be autoclaved. It is also great for labeling in Dietary, Pharmacy and Laboratory.

With the lightweight CS-2® labeler, you can print two lines of information with up to eight characters per line. The available characters include two Gregorian dates for expiration and autoclave dating with additional bands for load and sterilizer numbers. The CS-2® System single ply labels are available with a specially developed autoclavable adhesive in a variety of colors and styles.

TXII™ Hand-Held Labeling System

Ergonomically designed to offer optimum ease of operation, the TXII™ Hand-Held Labeling System allows you to easily date and code items in the Laboratory, Central Service, Warehouse and Pharmacy departments, or wherever a dating or coding system is required.

The TXII™ device's rugged, high-impact plastic provides for exceptional ease of handling and consistent printing on all labels. The TXII™ system provides you with:

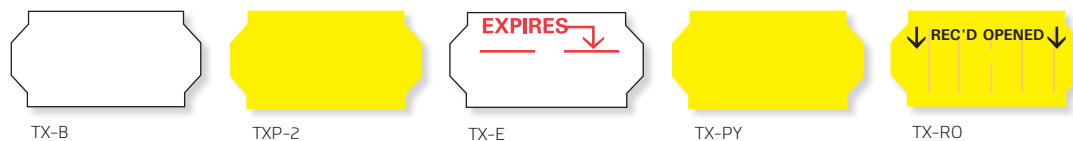

- Imprinted labels that display one line of information
- 10 digit dial-in capabilities, including Gregorian dating or large numbers
- Labels in a variety of colors, construction and adhesives

Imaging Labels

PDC Healthcare offers the largest selection of Medical Imaging Labels and Supplies at affordable prices. Efficient chart and film documentation is quick and easy with our Spee-D-Date™ X-Ray Date Labels, Radiology System Labels for master jackets, and X-Ray Mailing Labels.

PDC Healthcare’s pre-printed Spee-D-Date™ X-Ray Date Labels help identify when patient X-Rays were taken and X-Ray Film and Communication Labels help identify the position of the film and patient when the X-Ray was taken. To share film with your patients, our X-Ray Mailing Labels provides a simple method for doctors and radiologists to view and return X-Ray film back to your medical facility.

Imaging Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

Laboratory Labels

PDC Healthcare knows that when it comes to patient safety in laboratory operations, positive identification is mission critical. We offer labeling systems designed specifically for LIS systems, including Sunquest, Cerner, SoftLab, Meditech, and others.

- **V-Notch™ Secondary Labels**, along with BD Vacutainer® Plus Plastic Tubes, provide correct label placement the first time and every time! So you can ensure accurate identification and an optimal healthcare experience for patients and staff alike.
- **ISBT Compliant Bank Labels** enhance patient safety, while supporting ISBT 128 standards.
- **Point-of-Care Labeling Systems** use bar code scanning and wireless mobility for convenient, positive patient identification.

Laboratory Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

LABORATORY

V-NOTCH™ LABELS

V-Notch™ Secondary Labels:

The Simple Solution for Accurate Labeling & ID. V-Notch™ Secondary Labels provide quick, easy and accurate identification of BD Vacutainer® Plus Plastic Tubes. The V-shaped notch aligns with the color-coded notch and sidebar to provide:

- Consistent & Easy Labeling Guides
- Accurate & Reliable Bar Code Scanning
- Quicker Test Results
- Operational Efficiencies That Save Time & Money
- Increased Clinician Satisfaction
- Patient Safety & Satisfaction
- Accurate ID

before

after

Look for
labels with the
 symbol.

To Apply the V-Notch™ Labels:

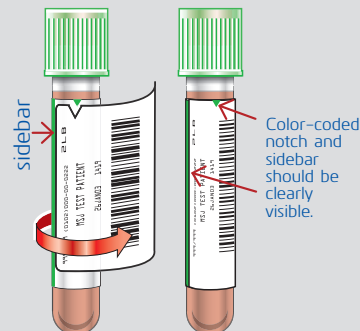

STEP 1:
Peel your
V-Notch™
Secondary
Label from
the liner.

STEP 2:
Visually align the
V-Notch™ with
the color-coded
notch on the BD
Vacutainer® Plus
plastic tube.

STEP 3:
Before you apply the
V-Notch™ Secondary
label, make sure the
color-coded notch
and the color-coded
sidebar on the BD
Vacutainer® Plus
Plastic Tube are clearly
visible. Smoothly wrap
the label around the
tube.

LABORATORY

POINT-OF-CARE LABELING SOLUTIONS

Labeling Solutions for Point-of-Care Safety

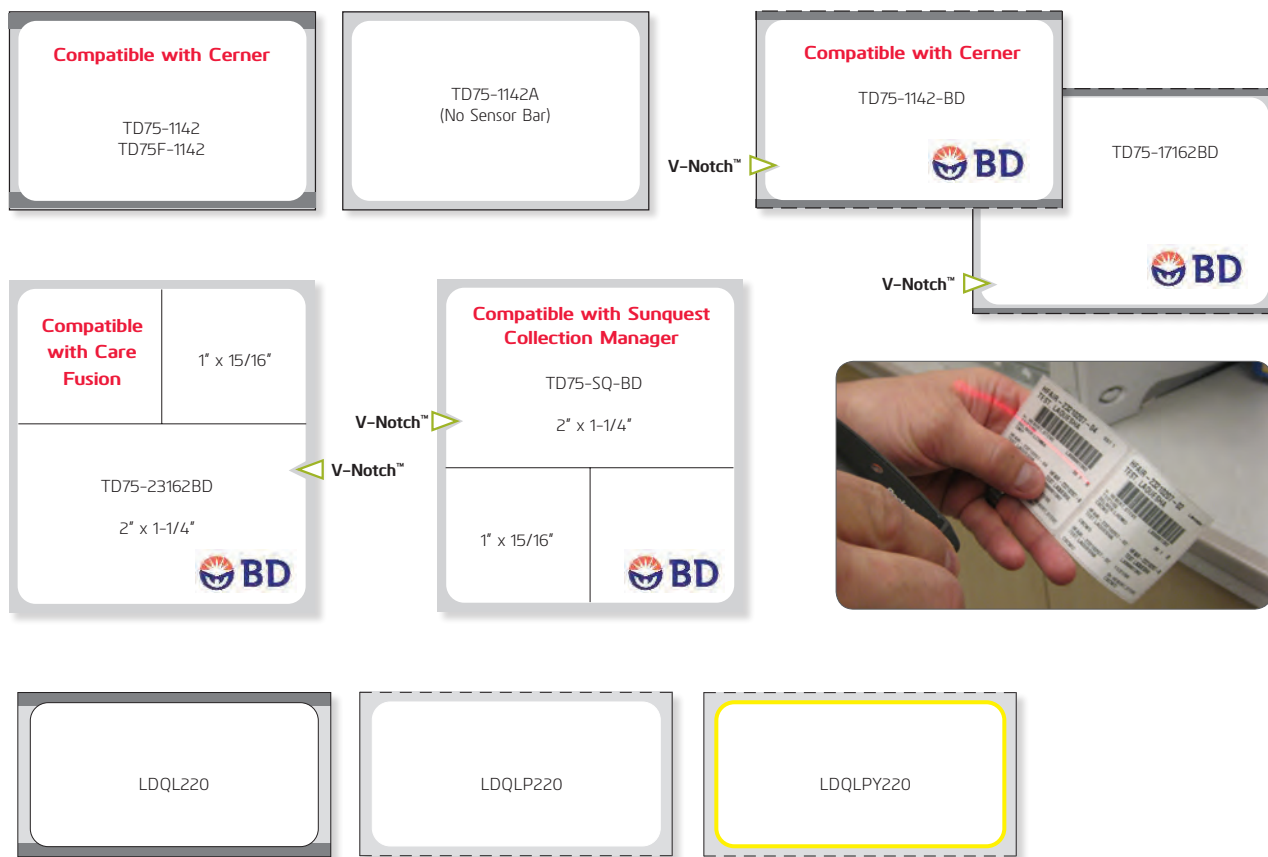

Increase patient safety and assure accuracy of identification at the point-of-care. Whether it's medication administration or specimen collection, PDC Healthcare labels help hospitals utilize the latest bar code scanning and wireless mobility products for medical care.

Labeling at the point-of-collection

- Provides an immediate method of positive identification
- Increases accuracy of labeling specimens and containers
- Can help reduce costs associated with retesting

When accuracy and speed of diagnosis count, you can rely on PDC Healthcare's point-of-care labeling solutions. For additional information, please contact your local PDC Healthcare sales representative.

ISBT Blood Labels

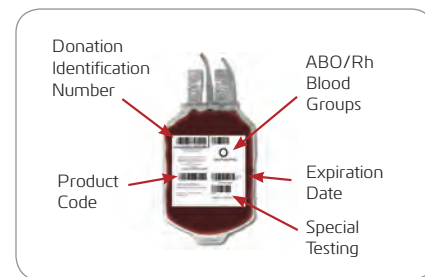

Reduce Errors and Improve Patient Safety with ISBT Compliant Labels

We can help you meet the ISBT Blood Bank standards with our complete line of blank and pre-printed labels.

Available in single quadrant, double quadrant and full-face configurations, our labels are precisely sized to run easily through your thermal printer while producing accurate bar codes and eye-readable information.

All our ISBT 128
Blood Bag Labels on this page
are for direct blood bag
application.

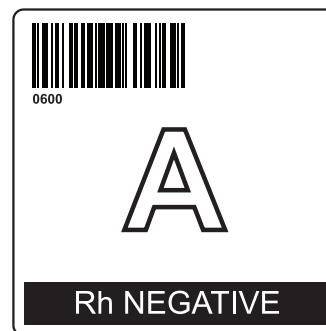

We also carry ribbon!

LABORATORY

MICROSCOPE SLIDE LABELING SOLUTIONS

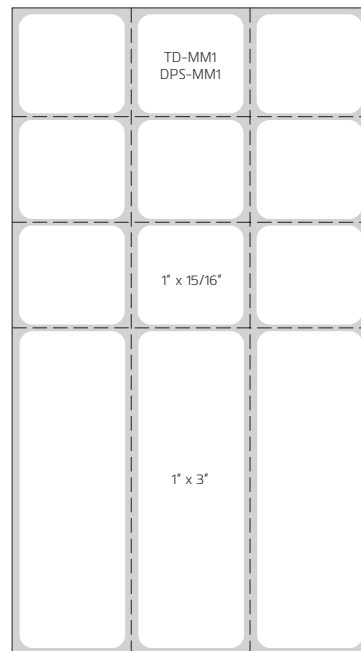

PDC Healthcare microscope slide solutions are available in tape and label form. Choose from white paper or tag stock, with permanent or Glove-Friendly adhesive in roll or sheet forms. They can be provided blank, imprinted with your facility and department name, or color coded in the size and thickness indicated. Accession numbering is also available. Our StainerShield® (page 130) and MicroTrax® (page 131) thermal transfer label/ribbon combination products are durable and dependable solutions for identifying patient tests.

LABORATORY

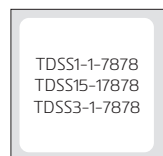

MICROSCOPE SLIDE LABELING SOLUTIONS

StainerShield® Slide Labeling Solutions

StainerShield®
Slide Labels are Xylene
and Stain Resistant!

Tired of spending valuable time and money on misidentified specimens, redraw samples and repeat testing? StainerShield® slide labels are a simplified solution to the complex problem of properly identifying and tracking specimen slides in a laboratory environment. Lab technicians can now print on-demand patient-specific labels and apply them to tissue and specimen slides as the slides are produced, before they go through the stainer. No over laminate flap, UV ink, or etching system is needed.

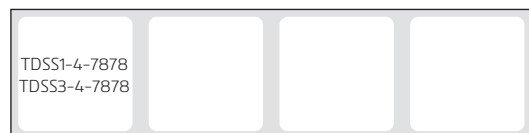

These labels can be printed on-demand using standard desktop thermal printers. In one simple printing step, technicians can print slide labels with both text and bar codes – including 2D bar codes – that contain data directly from the lab's information system.

Hi-Lo Temp Tape

This product can withstand temperatures as high as +550°F and as low as -384.8°F. The unique self-adhesive tape may be subjected to various testing equipment such as ovens, sterilizers, and incubators. Hi-Lo temp tape combines great strength with durability and has a textured surface that may be stamped or written on with a carbon pencil.

Product Number	Tape Width	Core Size	Material/Adhesive	Roll Size
AT-312	1/2"	1"	Temp Tape/Permanent	1/2" x 300"

Time Tape®

Time Tape® —
the toughest, most
reliable labeling tape in
the industry!

Stock Time Tape® 500" Rolls

Stock Time Tape® in 500" Rolls - Available in the 18 stock colors shown below			
Product Number	Tape Width	Core Size	Qty.
T-512	1/2"	1"	500"/RL
T-534	3/4"		
T-501	1"		
T-5112	1-1/2"		
T-502	2"		

1 - White	2 - Yellow	3 - Green	4 - Pink	5 - Red	6 - Orange	7 - Blue	8 - Tan	9 - Salmon	10 - Copper	11 - Rose
12 - Violet	13 - Lavender	14 - Grey	15 - Lime	16 - Aqua	17 - Chartreuse	18 - Black				

To order, add the "color number" to the end of the product number. For example, 1/2" x 500" in green is T-512-3.

Stock Time Tape® 2160" Rolls

Stock Time Tape® in 2160" Rolls - Available in the 18 stock colors shown below			
Product Number	Tape Width	Core Size	Qty.
T-1260	1/2"	3"	2160"/RL
T-3460	3/4"		
T-160	1"		
T-11260	1-1/2"		
T-260	2"		

Time Tape®, 500" Rainbow Packs

Stock Time Tape® in 500" Rolls - Rainbow Pack			
Product Number	Tape Width	Colors per Box	Box Qty.
T-512-RP	1/2"	(5) White, (4) Yellow, (3) Blue, (3) Green, (3) Orange, (3) Red, (3) Pink	24 Rolls
T-534-RP	3/4"	(4) White, (2) Yellow, (2) Blue, (2) Green, (2) Orange, (2) Red, (2) Pink	16 Rolls
T-501-RP	1"	(2) White, (2) Yellow, (2) Blue, (2) Green, (1) Orange, (2) Red, (1) Pink	12 Rolls

Time Tape® is also available in a convenient Rainbow Pack, which contains assorted rolls of 500" tape. The Rainbow Pack is available in three widths and priced per box. Order in full box quantities.

CUSTOM COLORS

Time Tape® can also be manufactured to match your specific color requirements. When ordering custom imprinted Time Tape®, please specify the following:

1) Length of the roll and quantity:

	1/2" W	3/4" W	1" W	1-1/2" W	2" W
Minimum Qty. (500")	24	24	24	24	24
Minimum Qty. (2,160")	12	8	6	8	6

2) Width of the roll:

☐ 1/2" ☐ 3/4" ☐ 1" ☐ 1-1/2" ☐ 2"

3) Repeat length of the imprint:

Repeat length is the distance from the beginning of one imprint to the beginning of the next imprint.

REPEAT REPEAT REPEAT
(The repeat length is = 1-1/2")

4) Exact wording needed:

For best results, include a sample or a sketch

5) Tape Color:

Choose from one of the 18 colors shown above.

6) Color Matching:

Any color not selected from the 18 shown above is subject to a \$25.00 ink matching charge. Add 20% for each additional imprint ink color.

YOUR IMPRINT HERE

7) Reverse Plates:

When a light colored type on a dark background is needed, there is an additional 25% tinting charge.

8) Perforation:

Add an additional 10% to the tape price for perforations between imprints.

9) Special Logos:

Custom logos or unique graphics/type are subject to an additional plate charge of \$35.00 for one color and \$50.00 for two colors.

10) Proof:

Upon written request with your purchase order, we will supply a one-color proof of your label. This proof must be returned within 30 days with your approval before the order can be processed. Proof orders that are cancelled will be billed for all production charges incurred prior to cancellation.

Call your PDC Healthcare representative at
(800) 435-4242 for more details.

Multi-Purpose Labels

PDC Healthcare offers a wide array of Laser Sheet Labels, Label & Tape Dispensers, Thermal Transfer Labels & Ribbons, and other multi-purpose labeling solutions to meet the needs of virtually any application.

Choose from a large selection of labeling products and ribbons that are fully compatible with your facility's existing printer system. Please use our cross-reference guides to match the right ribbon to the right application, based on your facility's printer model and label size.

If you cannot find stock labels that match your specific requirements, PDC Healthcare can customize any Laser Sheet Label, Dot Matrix Label, Direct Thermal Label or Thermal Transfer Label at an affordable price. PDC Healthcare can also custom design a label solution for your specialized software system or application.

Multi-Purpose Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.

DON'T SEE THE EXACT LABEL YOU NEED?

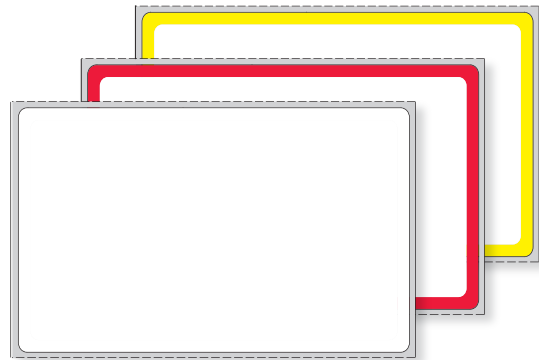

Please call (800) 435-4242 for pricing on other label or core sizes.

3" Core – Wound Out (Labels are on the outside of the roll)

Available in:

- ☒ Yellow Border
- ☒ Red Border
- ☒ White

3" Core – for Zebra®, Intermec, Datamax® and other printers

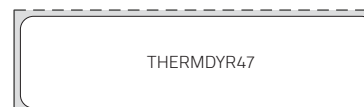

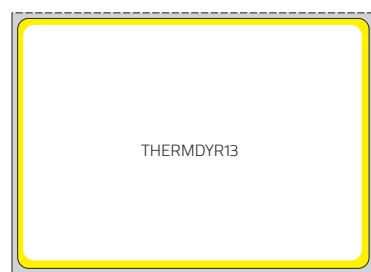

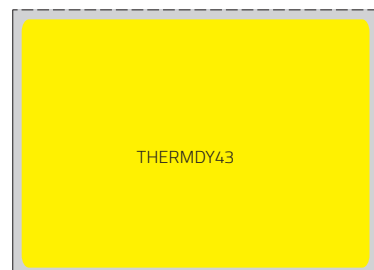

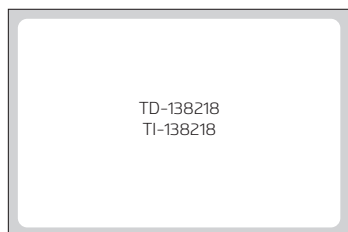

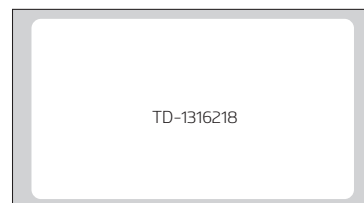

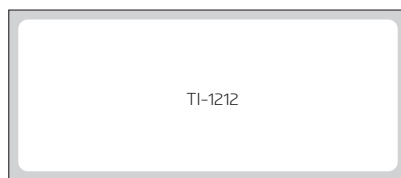

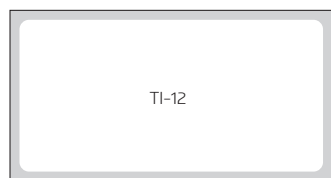

- 1/8" corner radius
- Perforated, 1/8" gap between labels
- Maximum 8" outer diameter, fits printers using 3" cores and accepting 8" outer diameter rolls
- Glove-Friendly permanent or removable adhesive

What is the Thermal Transfer Advantage?

- The printed image is much more durable
- You will use lower energy settings on your equipment
- You can choose from a variety of colors
- All thermal transfer printing is IR scannable

PDC Healthcare offers different ribbon formulations to ensure that you have the best price/performance solution for every label application. Throughout the catalog there are a wide selection of pre-determined ribbon/label combinations to choose from. Below are a few additional guidelines to follow when matching the right ribbon for the right application.

Wax Ribbon Formulations

Our wax ribbons are well-suited for basic general purpose applications throughout your facility. These formulations work well with a variety of paper stocks and promote higher productivity.

- They are more cost effective
- Require a lower melting temperature
- Are well suited for shelf and bin labeling

Wax/Resin Ribbon Formulations

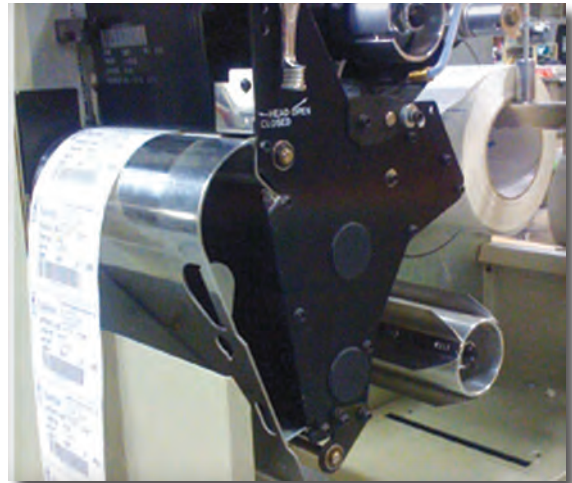

Premium wax/resin ribbons are well-suited for the demanding printing results needed in the Admissions, Laboratory and Pharmacy departments. These formulations are abrasion and solvent resistant, providing exceptional performance. They work well with a variety of paper stocks, including a variety of synthetics, and promote high-resolution printing.

- Moderately priced
- Perform well on moderate heat and steam applications
- Have excellent print quality for applications with longevity standard

Premium Resin

Our premium resin ribbons are well-suited for use with labels that are exposed to challenging applications such as heat, reagents and solvents. These well-rounded formulations perform under the difficult environments of your Laboratory, Pharmacy and Blood Bank.

- They are priced for performance
- Work best on the smooth surface of a synthetic stock
- Have excellent print quality for applications with longevity standards

MULTI-PURPOSE

THERMAL TRANSFER RIBBONS

PDC Healthcare offers a variety of ribbon formulations to ensure optimal performance from your thermal printer, label stock and label applications. Listed below are our most popular ribbons based on the printer model and label size. PDC Healthcare offers a vast selection of additional ribbons. For the printers listed below and more, please contact your PDC Healthcare Sales Representative at (800) 435-4242 or visit www.pdchealthcare.com to match a ribbon to your label stock and thermal printer.

Fast Wax Ribbon

General Purpose Wax – Economy Wax

BENEFITS

- Reliable, solid-performing wax ribbon
- Prints at fast speeds
- Prints at energy levels well below most competitive wax ribbons
- Excellent print quality on uncoated label stocks
- Backcoat protects printhead

GP725 Wax Ribbon

Resin Enhanced Wax – Capable and Cost Effective

BENEFITS

- Deep, dark bar codes, text and graphics
- Unbeatable performance at high speeds
- Prints on a wide range of substrates including coated, uncoated and some synthetic label stock
- Good durability, antistatic – ideal for RFID
- Guardian2 backcoat extends printhead life

Clean Start® makes cleaning effortless!

- A leading liner is built right into your thermal transfer ribbons to clean your printhead when you change your ribbon
- Non-abrasive – safe to use with every ribbon you load
- Fast and easy to use
- Maintains excellent print quality
- Prolongs printhead life
- Minimizes costly downtime

High Mark Wax Ribbon

General Purpose – Added Durability

BENEFITS

- Prints at low heat settings
- Specially formulated backcoat protects printhead
- Outstanding print performance on coated stocks
- Offers higher durability than most wax formulas

MULTI-PURPOSE

THERMAL TRANSFER RIBBONS

R2 Prime Wax/Resin Ribbon

Excellent Durability

BENEFITS

- Stands up to cleaners and mild chemicals
- Excellent scratch and smudge resistance
- Moderate level of steam resistance
- Well-suited for demanding labeling applications
- Backcoat protects printhead

PRINTERS - Datamax - I, M, W Class and Prodigy-Max

SP330 Resin Ribbon

Super Premium Resin - The Ultimate in Durability

BENEFITS

- Maximum durability for harsh labeling applications
- Highest level of resistance to abrasion, heat, steam and various chemicals
- Ideal for laboratory or central service
- Prints exceptionally on high-end synthetic labels
- Backcoat protects printhead

Calculating the Number of Ribbons Needed for a Label Order:

Formula:

Vertical Length of label + distance between labels (usually 1/8") x quantity of labels / 12" (to get ft.) / by length of ribbon (in ft.) = number of ribbons.

Example:

Calculate number of ribbons needed for 50,000 labels, 3" x 1" label with 1/8" between the labels. Ribbon size of 3-1/2" x 1,476'

SAMPLE DATA		1" Label Length
+	.125"	Between Labels
=	1.125"	TOTAL Length
x	50,000	Number of Labels
=	56,250"	TOTAL in Inches
÷	12	Divided by 12 to get feet
=	4,688'	TOTAL in Feet
÷	1,476'	Divided by length of ribbon
=	3.18 or 4	TOTAL # of Ribbons Needed (round up)

Thermal Transfer Ribbon Storage Conditions

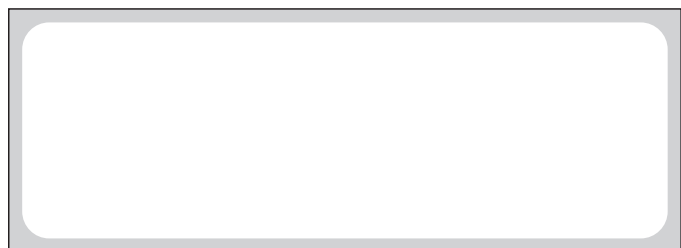

For optimal print results, thermal transfer printing should occur in the temperature range of 41°F to 95°F at 45% to 85% relative humidity. Suggested storage conditions for up to one year duration are 23°F to 104°F at 20% to 85% relative humidity. Exposing thermal transfer ribbons to direct sunlight or moisture will cause damage to the ribbons.

MULTI-PURPOSE

THERMAL TRANSFER LABELS/RIBBONS

Multi-Purpose Thermal Transfer Label Solutions

These high-quality paper labels are ideal for many bar code labeling applications in your Healthcare facility. They are comprised of a white ultra smooth, absorbent paper facstock excellent for use in standard and high-speed thermal transfer printers. They feature superior printability and produce crisp bar codes and text. The adhesive can be applied to most surfaces and the label material is highly recommended for use when longevity is a requirement.

Ribbon Recommendation: A wax or resin enhanced wax ribbon is recommended for optimal print performance and results for paper labels. These ribbons and labels are well suited for basic general purpose applications. Resin ribbon is recommended for film labels where extra durability is needed.

MULTI-PURPOSE

LABEL / TAPE DISPENSERS

Single and Multiple Roll Plastic Dispensers

Product Number	Description
HD-2	Plastic hand-held tape and label dispenser. Holds a variety of tape and/or label products up to a total of 1-1/8". Includes 2 spacers and a plastic clip to lock dispenser. Can be used as a single or multiple roll dispenser with pre-dispensing label mode. Size: 1-7/8"W x 3-1/2" H x 4-1/2"D
1052P-B	Plastic label dispenser that can hold multiple rolls up to a total of 8-1/2". Includes inserts, hanging bars and bottom suction cups for secure placement. Size: 9"W x 4-5/8" H x 6"D
500P	Plastic label dispenser that can hold multiple rolls of tape and label products up to a total of 9". For rolls with 1" cores. Holds up to eleven 1/2" rolls. Includes flip-top cover and bottom suction cups for secure placement. Size: 9-7/8"W x 3-3/8"H x 4-1/2"D
500P-LBL-INS	Insert slots for the 500P dispenser.
60P	Plastic label dispenser that can hold multiple rolls of tape and label products up to a total of 9-1/4". For rolls with 3" cores. Includes flip-top cover and bottom suction cups for secure placement. Size: 9-13/16"W x 6"H x 7-1/4"D
3161	Weighted plastic dispenser. Adjustable for rolls with 1" or 3" cores - 1/2", 3/4" and 1" widths. Size: 3-1/2"W x 3-1/4"H x 7-3/4"D
500P-LAN	Plastic label dispenser that can hold 15 rolls of Anesthesia tape or label products. Includes inserts, hanging bars and bottom suction cups for secure placement. Meant for tape and label products. Size: 2-1/2"W x 3-1/2"H x 4-1/2"D.
500P-LAN-LBL	Plastic label dispenser that can hold 15 rolls of Anesthesia label products. Includes inserts, hanging bars and bottom suction cups for secure placement. For label products only. Size: 12-1/2"W x 3-1/2"H x 4-1/2"D.
DPL-SP1	Clear plastic dispenser for labels. Can hold up to a total of 13". Size: 13-1/2"W x 4-1/2"H x 4-3/4"D
DSP-10W	Metal dispenser can be wall mounted. Holds up to eleven 1/2" rolls. Quick change arms lift up to replace rolls independently. Size: 18"W x 3"H x 8-1/2"D
DPM-16	Metal tape dispenser that is divided into 4 sections. Can hold up to 16 rolls of 1/2" wide tape. Size: 12-1/4"W x 3-5/16"H x 5"D
DSP-HC10	Clear plastic dispenser for labels only. Can hold up to ten 1/2" rolls, and includes 9 removable dividers. Size: 8-1/4"W x 5"H x 5-1/2"D

MULTI-PURPOSE TIME TAPE® STOCK & CUSTOM

Time Tape®

Time Tape® —
the toughest, most
reliable labeling tape in
the industry!

Stock Time Tape® 500" Rolls

Stock Time Tape® in 500" Rolls - Available in the 18 stock colors shown below			
Product Number	Tape Width	Core Size	Qty.
T-512	1/2"	1"	500"/RL
T-534	3/4"		
T-501	1"		
T-5112	1-1/2"		
T-502	2"		

1 - White	2 - Yellow	3 - Green	4 - Pink	5 - Red	6 - Orange	7 - Blue	8 - Tan	9 - Salmon	10 - Copper	11 - Rose
12 - Violet	13 - Lavender	14 - Grey	15 - Lime	16 - Aqua	17 - Chartreuse	18 - Black				

To order, add the "color number" to the end of the product number. For example, 1/2" x 500" in green is T-512-3.

Stock Time Tape® 2160" Rolls

Stock Time Tape® in 2160" Rolls - Available in the 18 stock colors shown below			
Product Number	Tape Width	Core Size	Qty.
T-1260	1/2"	3"	2160"/RL
T-3460	3/4"		
T-160	1"		
T-11260	1-1/2"		
T-260	2"		

Time Tape®, 500" Rainbow Packs

Stock Time Tape® in 500" Rolls - Rainbow Pack			
Product Number	Tape Width	Colors per Box	Box Qty.
T-512-RP	1/2"	(5) White, (4) Yellow, (3) Blue, (3) Green, (3) Orange, (3) Red, (3) Pink	24 Rolls
T-534-RP	3/4"	(4) White, (2) Yellow, (2) Blue, (2) Green, (2) Orange, (2) Red, (2) Pink	16 Rolls
T-501-RP	1"	(2) White, (2) Yellow, (2) Blue, (2) Green, (1) Orange, (2) Red, (1) Pink	12 Rolls

Time Tape® is also available in a convenient Rainbow Pack, which contains assorted rolls of 500" tape. The Rainbow Pack is available in three widths and priced per box. Order in full box quantities.

CUSTOM COLORS

Time Tape® can also be manufactured to match your specific color requirements. When ordering custom imprinted Time Tape®, please specify the following:

1) Length of the roll and quantity:

	1/2" W	3/4" W	1" W	1-1/2" W	2" W
Minimum Qty. (500")	24	24	24	24	24
Minimum Qty. (2,160")	12	8	6	8	6

2) Width of the roll:

☐ 1/2" ☐ 3/4" ☐ 1" ☐ 1-1/2" ☐ 2"

3) Repeat length of the imprint:

Repeat length is the distance from the beginning of one imprint to the beginning of the next imprint.

REPEAT REPEAT REPEAT
(The repeat length is = 1-1/2")

4) Exact wording needed:

For best results, include a sample or a sketch

5) Tape Color:

Choose from one of the 18 colors shown above.

6) Color Matching:

Any color not selected from the 18 shown above is subject to a \$25.00 ink matching charge. Add 20% for each additional imprint ink color.

YOUR IMPRINT HERE

7) Reverse Plates:

When a light colored type on a dark background is needed, there is an additional 25% tinting charge.

8) Perforation:

Add an additional 10% to the tape price for perforations between imprints.

9) Special Logos:

Custom logos or unique graphics/type are subject to an additional plate charge of \$35.00 for one color and \$50.00 for two colors.

10) Proof:

Upon written request with your purchase order, we will supply a one-color proof of your label. This proof must be returned within 30 days with your approval before the order can be processed. Proof orders that are cancelled will be billed for all production charges incurred prior to cancellation.

Nursing Labels

PDC Healthcare provides a complete selection of patient chart products and general labeling solutions for patient care. Alert, callout, and warning labels ensure clear communication between caregivers and accurate medication administration throughout the continuum of care. Our Patient Chart Labels & Tapes are designed to help nurses maintain detailed and accurate patient charts with unmatched organization.

Nursing Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Health Insurance Portability and Accountability (HIPAA):** to protect patients' medical records and other health information.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

(P) = Permanent Adhesive
(R) = Removable Adhesive

black-out labels that completely conceal IV patient information.

Ensure patient confidentiality by simply applying this label over the existing IV bag label (which contains the patient information) when the bag is discarded. The black text pattern and special black adhesive obscure sensitive patient information making it impossible to read from both sides of the bag.

PPMS34

Product Number	Label Size	Material/Adhesive	Roll Qty.
PPMS34	3" x 2"	Identi-Hide™/ Permanent	500
PPMS26	4" X 1"		1,000
PPMS27	4" x 2"		500
PPMS28	4" x 3"		500
PPMS30	5" x 2"		500
PPMS32	5" x 3"		500

At PDC Healthcare, we have developed many labels to assist our customers in being compliant with HIPAA regulations. Here's some information on one of our more popular labels that we thought you should be aware of.

PROBLEM: When discarded, IV bag and urine cups labeled with patient information DO NOT CONFORM to HIPAA requirements.

PDC-HEALTHCARE SOLUTION: Ensure patient confidentiality by simply applying this label over the existing IV bag and urine cup label (which contains the patient information) when discarded. The black text and adhesive obscure sensitive patient information making it impossible to read from both sides of the cup.

Product Number	Label Size	Material/Adhesive	Roll Qty.
PPMS33	2" Circle	Identi-Hide™/Permanent	500
PPMS29	3" Circle		

Discard urine collection cups and be confident that you're

HIPAA
compliant

Perfect size
for urinalysis cups!

Did you know? "The Privacy Rule, creates national standards to protect individuals' medical records and other personal health information. It also holds violators accountable if they violate patient privacy rights and it provides for occurrences where public responsibility requires disclosure of some forms of patient health data."

PATIENT CHART LABELS & TAPE

Patient ID Tapes

PDC Healthcare's Patient Chart Tapes provide a cost-effective means for color-coding patient charts. These self-adhesive tapes are imprinted with "Rm. No.," "Patient," and "Doctor." Patient Chart Tapes are removable and won't leave a sticky residue when removed.

Airborne Precautions

Airborne Precautions

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- Private Room that has:**
 - Monitored negative air pressure
 - 6 to 12 air changes per hour
 - Discharge of air outdoors or HEPA filtration before air is recirculated.

KEEP THE ROOM DOOR CLOSED AND THE PATIENT IN ROOM
- Respiratory Protection**
Wear an N95 respirator mask for known or suspected AFB disease.
 Susceptible persons should not enter the room of patients with known or suspected measles (rubeola) or varicella (chicken pox) if immune caregivers are available. If susceptible persons must enter the room, wear appropriate mask.
- Limit the movement/transport of patients from room to essential purposes only. During transport, minimize the spread of droplet nuclei by placing a surgical mask on patient, if possible.

Precauciones Por Infecciones Aerotransportadas

(además de Precauciones Normales)

Visitantes — Favor de Reportarse a la Estación de Enfermeras Antes de Entrar al Cuarto.

- Cuarto privado que tiene:**
 - Monitor de Presión atmosférica negativa
 - 6 a 12 cambios del aire por hora
 - Descarga del aire del cuarto al aire libre, o filtración tipo "HEPA" antes que el aire se recircula

MANTENER LA PUERTA DEL CUARTO CERRADA Y EL PACIENTE DENTRO DEL CUARTO.
- Protección respiratoria.** Usar una máscara respiratoria N95 para infección "AFB" diagnosticada o sospechada. Personas propensas no deben de entrar al cuarto de pacientes con infecciones diagnosticadas o sospechada de sarampión (rubeola) o varicela, cuando hay enfermeras inmunes disponibles. Cuando personas propensas deben de entrar al cuarto, tienen que usar una máscara apropiada.
- Límitar el movimiento/transporte de pacientes del cuarto solo para propósitos esenciales. Durante el transporte, **minimizar la diseminación de gotillas a través del aire** poniendo una mascarilla quirúrgica al paciente, si es posible.

59705277 — Fl. Pink (R)

AIRBORNE PRECAUTIONS

(In addition to Standard Precautions)

- Patient Placement**
 - Provide at least six or 12 air changes per hour.
 - Direct exhaust of air to the outside or direct through HEPA filters before air is recirculated.
 - Monitor air pressure daily with visual indicators regardless of the presence of differential pressure sensing devices.
 - Keep door closed when not required for entry and exit.
- Personnel**
 - Restrict susceptible healthcare personnel from entering the rooms of patients known or suspected to have measles (rubeola), varicella (chickenpox), disseminated zoster, or smallpox if other immune healthcare personnel are available.
- Respiratory Protection**
 - Wear a NIOSH-approved N95 or higher level respirator when entering the room of a patient with known or suspected AFB diseases.
- Patient Transport**
 - Limit the movement and transport of patients outside the room to medically necessary purposes only. If transport is essential, instruct the patient to wear a mask. For patients with skin lesions or draining skin lesions cover the affected areas.
- Exposure Management**
 - Immunize or provide the appropriate immune globulin to susceptible person as soon as possible following unprotected contact with infected patients.

59701470 — Fl. Pink (R)

AIRBORNE PRECAUTIONS

59701473 — Fl. Pink (R)

DID YOU KNOW?

According to the CDC, 1.7 million people a year contract hospital-related infection, resulting in 99,000 deaths.

Source: www.cdc.gov/HAI/pdfs/hai/infections_deaths.pdf

AIRBORNE PRECAUTIONS

Contact Precautions

Contact Precautions

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- Private Room.** When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection.
- Wear gloves when entering room.** Change gloves after contact with infective material. Remove gloves before leaving the patient's room.
- WASH YOUR HANDS** immediately with antimicrobial agent before leaving the patient's room. After glove removal and handwashing, ensure that hands do not touch potentially contaminated environmental surfaces or items in the patient's room to avoid transfer of microorganism to other patients or environments.
- Wear a gown** if you anticipate that your clothes will have substantial contact with the patient, environmental surfaces, or items in the patient's room or if the patient has any of the following:
 - Incontinent • Diarrhea • Colostomy • Ileostomy
 - Wound Drainage not contained by a dressing
- Remove gown before leaving patient's environment.
- Limit the movement/transport of patients from room to essential purposes only. During transport, ensure that all precautions are maintained at all times.
- When possible, dedicate the use of noncritical patient care equipment for each patient.

Precauciones de Contacto

(además de Precauciones Normales)

Visitantes — Favor de Reportarse a la Estación de Enfermeras Antes de Entrar al Cuarto

- Cuarto Privado.** Cuando el cuarto privado no esté disponible, se comparte el cuarto con paciente(s) que tenga(n) una infección activa con el mismo microorganismo pero sin cualquier otra infección.
- Usar guantes al entrar al cuarto.** Cambiarse los guantes después de tener contacto con sustancias infecciosas. Quitese los guantes antes de salir del cuarto del paciente.
- LAVARSE LAS MANOS** inmediatamente con detergente antimicrobico antes de salir del cuarto del paciente. Después de quitarse los guantes y de lavarse las manos, asegúrese de que sus manos no toquen superficies o artículos potencialmente contaminados dentro del cuarto del paciente para evitar transmitir el microorganismo a otros pacientes o medio ambiente.
- Use una bata si anticipa que su ropa tendrá contacto con el paciente, superficies del ambiente, o artículos en el cuarto del paciente, o si el paciente tiene cualquiera de lo siguiente:
 - Incontinencia • Diarrea • Colostomía • Ileostomía
 - Drenaje de herida no cubierta por un vendaje
- Quitarse la bata antes de salir del cuarto del paciente.
- Limitar el movimiento/transporte de pacientes del cuarto solo para propósitos esenciales. Durante el transporte, asegurarse que todas las precauciones sean obedecidas en todo momento.
- Cuando posible, asigna equipo individual para cada paciente.

59705275 — Fl. Green (R)

CONTACT PRECAUTIONS

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- Private Room** — when private rooms are in short supply, prioritize patients with conditions that may facilitate transmission and cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors and draw privacy curtains if cohorting or private room is not available.
- Gloves and Gown** — wear gloves and gown when entering room or cubicle. Remove gown and gloves before leaving patient's room and ensure that clothing and skin do not contact potentially contaminated environmental surfaces that could result in possible transfer of microorganisms.
- Wash Hands** — with warm water and antimicrobial agent immediately after glove and gown removal and before leaving patient's room.
- Transport** — limit the movement and transport of patients outside the room to medically necessary purposes only. If transport is essential, ensure infected areas of the patient's body are contained and covered.
- Equipment** — use disposable non-critical patient-care equipment (e.g. blood pressure cuffs) or implement patient-dedicated use of such equipment. If use of common equipment is unavoidable, clean and disinfect equipment between patients.
- Environmental Measures** — Ensure that rooms of infected patients are prioritized for frequent cleaning and disinfection (e.g. at least once daily) with a focus on frequently touched surfaces (e.g. bed rails, overbed table, doorknobs) and equipment in the immediate vicinity of the patient.

Droplet Precautions

Droplet Precautions

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- Private Room.** When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors if cohorting or private room is not available.
- Mask required** when working within 3 feet of patient (or when entering room). Check your hospital's policy.
- Limit the movement/transport of patients from room to essential purposes only. During transport, **minimize the spread of droplets by placing a surgical mask on the patient, if possible.**

Precauciones de Contaminación por Gotas

(además de Precauciones Normales)

Visitantes — Favor de Reportarse a la Estación de Enfermeras Antes de Entrar al Cuarto.

- Cuarto Privado.** Cuando el cuarto privado no esté disponible, se comparte el cuarto con paciente(s) que tenga(n) una infección activa con el mismo microorganismo pero sin cualquier otra infección. Mantener una distancia de por lo menos 3 pies de otros pacientes o visitantes si comparten un solo cuarto, o cuando un cuarto privado no está disponible.
- Máscara requerida** cuando esté trabajando dentro de 3 pies del paciente (o al entrar al cuarto). Verifique los reglamentos del hospital.
- Límitar el movimiento/transporte de pacientes del cuarto solo para propósitos esenciales. Durante el transporte, **minimizar la diseminación de gotas poniendo una mascarilla quirúrgica al paciente, si es posible.**

59705276 — Fl. Orange (R)

DROPLET PRECAUTIONS

(In addition to Standard Precautions)

- Private Room.** When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors if cohorting or private room is not available.
- Mask required** when working within 3 feet of patient (or when entering room). Check your hospital's policy.
- Limit the movement/transport of patients from room to essential purposes only. During transport, **minimize the spread of droplets by placing a surgical mask on the patient, if possible.**

59701471 — Fl. Orange (R)

DROPLET PRECAUTIONS

59701474 — Fl. Orange (R)

DROPLET PRECAUTIONS

(In addition to Standard Precautions)

Visitors — Report to Nurses' Station Before Entering Room

- PATIENT PLACEMENT**
Private Room. When a private room is not available, cohort with patient(s) who has active infection with the same microorganism but with no other infection. Maintain spatial separation of at least 3 feet from other patients and visitors if cohorting or private room is not available. 
- RESPIRATORY PROTECTION**
Mask required when working within 3 feet of patient (or when entering room). Check your hospital's policy. 
- PATIENT TRANSPORT**
Limit the movement/transport of patients from room to essential purposes only. During transport, **place surgical mask on the patient, if possible.** 

59701467 — Fl. Orange (R)

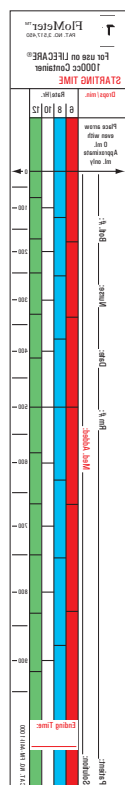

These steps are recommended by the CDC to reduce the risk of contact with large-particle droplets. The signs are placed outside the patient's door to warn visitors and staff of the necessary steps to reduce the spread of disease.

Operating Room/Surgery Labels & Accessories

PDC Healthcare offers a full range of products for the Operating Room and Surgery, including Sterile Labeling Kits, which help prevent operating room errors. Our Sterile Medication Label Kits, and Marking Pens are packaged and sterilized according to FDA standards.

We also provide stock pre-printed labels for common surgical procedures. For less frequent operations, choose from an array of custom labels with your choice of color, text, size, and number of labels per sheet.

Operating Room/Surgery Sterile Labels & Accessories help healthcare organizations meet applicable patient safety regulatory guidelines, including:

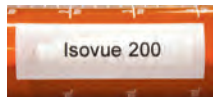

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Pharmacy Labels

PDC Healthcare’s Pharmacy Labels are compatible with pharmacy information systems and automated dispensing systems to provide seamless integration and interoperability. When used with a closed-loop medication administration system, Pharmacy Labels help ensure safe medication administration through the Five Rights of Medication Management: Right Patient, Right Medication, Right Dosage, Right Time, and Right Route. From Cerner, to Mediware, to Optifill, our Pharmacy Labels are compatible with virtually any system.

Pharmacy Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients’ medical records and other health information.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

Alcohol Resistant Direct Thermal Label

Problem:

When medications are added to an IV bag, the IV bag is sprayed with alcohol for sterilization purposes. The alcohol will cause the regular direct thermal label on the IV bag to turn black.

Solution:

We offer an alcohol resistant direct thermal label that will not turn black when exposed to alcohol.

Regular Direct Thermal Label

Alcohol Resistant Direct Thermal Label

These two labels have been wiped with an alcohol pad. The regular direct thermal label (shown on the top) turns black. The alcohol-resistant direct thermal label (shown on the bottom) is not effected by alcohol and the bar code is scanned and read correctly.

Product Number	Label Size	Carrier Width	Core Size	Wound	Material/Adhesive	Qty.

AUTOMATED SYSTEMS LABELING SOLUTIONS

Pyxis® MedStation™ System Solutions

Automated Pharmacies are an integral part of today's hospitals. PDC Healthcare's thermal paper products are designed for use with all MedStation™ systems, including the MedStation™ 4000, which are advanced point-of-use systems that automate the distribution, management, and control of medications. MedStations™ can be found on various hospital floors which will generate a paper receipt displaying key medications and patient information.

Veterans Affairs (VA) Department of Defense (DOD) Indian Health Service (IHS) — Government Labels

PDC Healthcare leads the way as the #1 choice of Pharmacy label solutions nationwide! We specialize in designing custom labeling solutions to meet your specific workflow software and branding requirements. As the pharmacy automation movement transforms the needs of many pharmacies, PDC Healthcare is innovating new labeling solutions that support automated processes, such as thermal printing, laser printing, bar coding, robotics and more!

No matter what type of pharmacy you operate, we have your pharmacy labeling needs covered!

Government Labels help healthcare organizations meet applicable patient safety regulatory guidelines, including:

- **The Joint Commission National Patient Safety Goals:** Identify Patients Correctly, Improve Staff Communication, Use Medicines Safely, Prevent Infection, Identify Patient Safety Risks, and Prevent Mistakes in Surgery.
- **Centers for Medicare & Medicaid Services (CMS):** Stage 2 meaningful use requirements to use assistive technologies with eMAR.
- **Health Insurance Portability and Accountability Act (HIPAA):** to protect patients' medical records and other health information.
- **American Health Association (AHA):** to prevent the chance of lost or transferred data.
- **Five Rights of Patient Safety:** to ensure right patient, medication, dose, time, and method.

PHARMACY PRESCRIPTION LABELS

We have solutions for your Pharmacy Robotic needs!

Pharmex® works with the top automated pharmacy dispensing systems to provide both stock and custom direct thermal prescription labels. These labels are designed specifically for robotic prescription dispensing systems. New labels, same company – providing the same reliability and quality you have come to trust. Robotics are the future of the pharmacy industry, and Pharmex® is already ahead of the pack in providing quality direct thermal labels that are compatible with the most popular dispensing machines.

C2Rx PLUS Direct thermal label

that protects the integrity of vital prescription information against the potentially damaging effects of exposure to sunlight, hand sanitizers, alcohol, fading and more.

Protects prescription label!

Minimizes risk of fading, smearing and darkening of direct thermal prescription labels as a result of exposure to:

- Heat and moisture
- Sunlight
- Hand soaps/sanitizers
- Alcohol
- Common household products

Maintain & build a positive brand image!

- Improves the quality of the imprint long after the prescription leaves the pharmacy
- Provides a professional marketing image label versus your competitor's basic and susceptible Rx label

PHARMACY PRESCRIPTION LABELS

FlickAway® PharmeXcript® Laser Sheets

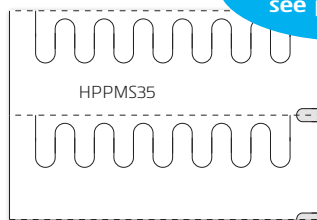

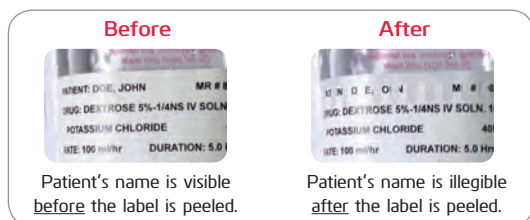

PharmeXcript® Forms feature the patented FlickAway® Technology. This allows the pharmacist to peel off the vial label and warning labels at one time, easily “flicking away” those warning labels that are not needed.

These DOD approved DAPA stock forms are available ONLY through Pharmex®. Any of these forms can be customized with your information and logo.

Visitor Pass Badges

To meet safety guidelines, it's important that patients, staff, and visitors be positively identified at all times. To help hospitals achieve this measure of positive identification, PDC Healthcare provides a wide selection of Visitor Passes including Label Badges, Card Badges, Expiring Passes, and Visitor Wristbands. Choose from pre-printed and custom Visitor Passes in an assortment of styles and color codes to signify days of the week, hospital floors, high-security areas, and more.

PDC Healthcare now offers Expiring Visitor Badges to help hospital staff easily identify visitors who have exceeded their allotted visiting hours. One day after activation, red lines appear on the badge, which signify the badge's expiration.

PDC Healthcare's Visitor Passes meet the Joint Commission's standard for hospital safety and security risks by identifying individuals entering a medical facility.

Visitor Pass Badges help healthcare organizations meet applicable patient safety guidelines, including:

The Joint Commission Environment of care:
EC.02.01.01 "The hospital manages safety and security risks."

Elements of Performance 7: The hospital identifies individuals entering its facilities.

TERMS & CONDITIONS OF SALE

PDC HEALTHCARE

Price and Payment Terms

Payment terms are net 30 days. Credit application may be required for terms. State and local taxes, if applicable, will be included when invoiced.

PDC Healthcare accepts American Express, Mastercard, Visa, and check. All prices are in U.S. dollars. Foreign import duties and exchange rates, if any, are the responsibility of the customer.

Freight

Freight terms are Pre-Pay & Add.

Terms of sale – FOB Destination Freight Pre-Paid and Charged Back.

Custom Products Orders

- As custom product is made to the customers' exact specifications, custom product may not be returned.
- Customer assumes sole responsibility for accuracy and use of artwork and indemnifies PDC Healthcare in the event of any claims for copyright infringement. By signing/approving any artwork, customer certifies that they are legally authorized to use such logos, trade names, or trademarks.
- **Wristbands:** To ensure accuracy, we ask that all orders for custom imprinted products be submitted in writing, accompanied by a copy or actual sample of imprint. Minimum quantities may be required.
- Please call Customer Care at **800.435.4242** for an Artwork Form or go to the "Artwork Specifications" section of the PDC Healthcare web site: www.pdchealthcare.com.
- **Label & Tape Products:** PDC Healthcare has the capability to produce custom labels to your specifications. Please call your local PDC Healthcare sales representative or Customer Care for additional information and assistance at **800.435.4242**. Please allow 15 working days for new custom orders and 10 working days for repeats.
- Due to manufacturing fluctuations on custom labels, we reserve the right to ship +/- 10% of the quantity ordered. Invoices will be adjusted to reflect the actual quantity shipped.
- Upon cancellation of a custom order, once a purchase order has been issued, the customer will be responsible for all production charges accrued through the date of notification of cancellation. PDC Healthcare assumes no responsibility for custom label orders on which the customer has made an error in quantity or label specifications.

Returns Policy

PDC Healthcare will allow returns under the following conditions:

- When the customer orders in error and the product is not older than 60 days from the date of invoice.
- Return freight is the responsibility of the customer.
- A 15% restocking fee will be assessed for all products.
- Customer will receive credit for original order, excluding any freight charges.
- When a PDC Healthcare error or product defect occurs, if reported to PDC Healthcare within 60 days from the date of invoice, full credit, including freight, will be issued. (Excludes pre-established contracts between PDC Healthcare and Group Purchasing Organizations)
- All returns for credit require a written Return Merchandise Authorization (RMA) number from PDC Healthcare. No returns will be accepted without a RMA number. The RMA number must have supporting paperwork indicating original purchase order number, PDC Healthcare sales order number, date of original order, etc. If a return is submitted without an RMA number, product will be refused and sent back to the customer at customer's expense.
- Call tags will be issued for customers with the exception of large shipments or pallets. The decision to issue call tags will be based on the reason for the return for large shipments or pallets.
- Call tags will only be issued to Distributors if PDC Healthcare is at fault.
- International Customers will be responsible for sending product back unless it is a PDC Healthcare error.
- Custom printed or serialized product is not returnable.
- Merchandise must be returned in full boxes, original packaging and in good condition.
- Authorized returns must be received by PDC Healthcare within 30 working days from the date of RMA issuance.
- If there is any loss or damage at the time of delivery, it is essential to note it on the delivery receipt. Any concealed damage should be reported to the delivering carrier within 15 days. Keeping the entire package is necessary until after the carrier issues a concealed damage inspection report.

Warranty

Products sold are of merchantable quality at the time they are delivered, and are manufactured in conformance with supplier's specifications, drawings, or other descriptions; and that supplier conveys good and marketable title to them, subject to supplier's security interest.

PDC Healthcare warrants against defects in material, workmanship, design, and manufacturing. Supplier further represents and warrants that the products will conform to the specifications, drawing, and samples furnished by Healthcare and will be safe for their intended use. If any products are defective and a claim is made, PDC Healthcare will replace the defective products. PDC Healthcare will bear all costs of returning and replacing the defective products.

To the maximum extent permitted by applicable law, PDC Healthcare disclaims all other warranties, expressed or implied, including but not limited to implied warranties of title, non-infringement, merchantability, and fitness for a particular purpose with respect to the products.

PDC Healthcare makes no other warranties other than those expressly provided for herein. In no event shall PDC Healthcare be liable for an incidental, special, consequential, or punitive damages related to the wristbands, labels or tape and component parts used with its products.

**Excludes pre-established contracts between PDC Healthcare and Group Purchasing Organizations or customers.*

Quality Process = Quality Care

Every company talks about quality. But not every company makes the kind of investments in people, process improvement, and technology that PDC Healthcare does to ensure unmatched quality in all that we do.

As part of our mission to provide defect-free, medical-grade quality products, every product we produce is born of thousands of hours of rigorous research and testing to provide the most durable, reliable, safest, and highest-performing products available.

In addition, our company constantly strives to understand our customers' needs through vehicles such as our comprehensive Customer Survey Program. Through close and continuous interaction between customer and company, we can better ensure that your needs and views are clearly understood and fulfilled.

That's been the PDC Healthcare way for more than 55 years.

Mission Statement

PDC connects people, products, and technology through innovative ID solutions that deliver superior customer experiences worldwide.
