# CompuBand® Instructions for Use

1 Print information and tear wristband from the roll.

1A Printable surface area is 3.75" starting at black sensor bar on the reverse side of the band and extending toward the snap closure hole.

2 With information facing up, press the male portion of the plastic fastener up through the single hole on the wristband. Fastener will remain attached to backside of band.

Patient, John Q.

DOB: 02-23-75
SEX: M
Dr. J. Smith
Room #: 123-B

PAT. ID # 123456

3 Adjust the wristband around patient's wrist, line up desired hole, and snap fastener closed.

4 Trim off any excess wristband material with scissors, leaving smooth, rounded corners.
