PATIENT SAFETY STARTS WITH ACCURATE MEDICATION IDENTIFICATION

Ensure compliance with **Joint Commission National Patient Safety Goal** NPSG.03.04.01 to improve the safety of using medications by labeling all medications, medication containers, and other solutions.

PDC pharmacy labels help ensure safe medication administration through the **Five Rights of Medication Administration**:

✓ **RIGHT PATIENT** ✓ **RIGHT DRUG** ✓ **RIGHT DOSE** ✓ **RIGHT ROUTE** ✓ **RIGHT TIME**

PDC pharmacy labels help pharmacies:

· Increase patient safety
· Reduce medication errors
· Improve workflow efficiency
· Clarify communication
· Ensure regulatory compliance
· Support supply chain consolidation

Over 90% OF HOSPITALS rely upon PDC products:

· A trusted manufacturer and leader in identification and patient safety solutions
· 60+ YEARS of healthcare experience
· Unmatched product breadth and superior service
· Ability to quickly engineer and produce custom labels

MEDICAL GRADE PHARMACY SYSTEM & AUTOMATION LABELS   Customizable

Blank, Thermal Labels Rigorously Tested to Reduce Errors

PDC medical grade thermal labels reduce labeling errors and assure accurate and lasting identification of medications and more to increase patient safety.

32 HOUR, 12 POINT testing to ensure top performance

Compatible with leading PIS such as Cerner, Epic, McKesson, VA Hospital, and most direct thermal printers

Compatible with pharmacy automation robotics: OptiFill®, Pyxis® MedStation™, and ScriptPro®

Experienced technical support available to set up system integrations and printers

---

COMMUNICATION LABELS   Customizable

Highly Visible to Command Attention – Over 500 Color/Size Combinations

Clearly communicate important instructions, information and alerts within the pharmacy and between departments.

Hundreds of pre-printed options to help you communicate, comply, identify, and organize to keep your pharmacy running efficiently

Bright colors and easy-to-read, bold text

Customizable to communicate your exact message or fit your specific size requirements

HIPAA COMPLIANT LABELS Customizable

An Easy Way to Protect Patient Privacy

De-identify IV medication bags and containers that contain protected health information.

Available in a variety of dimensions to fit a wide range of medications and containers

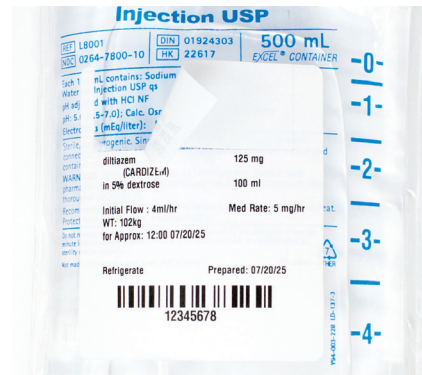

Cover Patient Data

IdentiHide® Labels: Apply to cover the patient information, making it impossible to read from both sides of the container.

Obscure Patient Data

Self-Shredding Labels: Peel off the top portion of this piggyback label to obscure patient information.

Remove Patient Data

Perforated Labels: These perforated, single-layer labels make it easy to remove patient data — great for reissuing IV bags.

MEDICATION LABELS & TAPE Customizable

Reduce Medication Errors

These labels and tape are pre-printed with medication names and dosages to prevent confusion and misidentification errors resulting from illegible handwriting.

Pre-printed with drug names and strengths and includes prompts for date/time, expiration date, volume, and personnel initials

Color-coded to follow ASTM standards for drug classes

Meet applicable JOINT COMMISSION NATIONAL PATIENT SAFETY GOALS

MEDICATION WARNING LABELS Customizable

Over 500 Stock Options to Clearly Communicate Warnings for Safe Medication Use

Clearly communicate important prescription instructions and warnings with these industry standard labels.

Colorful, bright and easy to read to command attention

Available in multiple languages

Also Available:

Integrate the **SOFTFONTS WARNING LABEL GRAPHICS LIBRARY** with your pharmacy management system to create custom warning labels using the library of icons, text and barcodes

Choose **LABEL AND TAPE DISPENSERS** to keep your pharmacy organized and efficient

---

RENOVO™ PHARMACY LABELS NEW

Enables the Efficient Reissuing of IV Bags and Syringes

Direct thermal labels featuring a specially-formulated, permanent adhesive that allows the label to be easily and cleanly removed when an IV bag or syringe needs to be reissued.

Remains firmly adhered to an IV bag or syringe through temperature changes during prep and is alcohol resistant

Removes easily as a single piece, leaving no residue behind, allowing pharmacy technicians to efficiently reissue medication

Crisp direct thermal printing means barcodes and patient information won't fade or smudge

Plastic core makes them suitable for use in clean rooms

PDC CERTIS® DIRECT THERMAL PRINTERS

Efficient, Crisp Label Printing — Compact with Mobile Options

PDC thermal printers complete the pharmacy's label solution, allowing personnel to quickly print high quality labels on demand.

Seamless EMR integration with PIS and EMR systems Epic, and Cerner

Reliable performance validated by thousands of hours of testing

Industry's most competitive printer warranties of up to 3 years

Guaranteed to ensure 100% customer satisfaction

CODE® RX-READY BARCODE READERS

High-value, High-performance Scanners Fortify Pharmacies

NEAR-ZERO MISS SCANNING These barcode readers scan any barcode (whether scratched, stained or shiny) on any vial, bottle or label type — superior tech won't slow workflows

DATA PARSING Via JavaScript, these scanners pull specified data from one (or multiple) barcodes at once and can verify age — ideal for compliance and safety

CODESHIELD® PLASTICS These scanners use disinfectant-ready plastics that won't yellow, crack and cause premature device failure like "antibacterial plastics" — protect staff and your investment

SIMPLY SCALABLE Remote firmware updates keep devices current — greater convenience, greater value

IN STOCK Mission-critical barcode readers are ready to ship — stop waiting, start scanning
